List of Tables

Table 1.1.1  PTPs that regulate JAK-Stat pathway  8
Table 1.1.2  Phenotype of targeted disruption of mouse Stat genes  11
Table 1.1.3  Phenotypes of tissue specific Stat3 knockout mice  12
Table 1.2.1  Common types of carcinomas  16
Table 1.2.2  Common types of sarcomas  17
Table 1.2.3  Common types of hematopoietic malignancies  17
Table 1.2.4  Types of neuroectodermal malignancies  17
Table 1.2.5  Classification of malignant gliomas and survival  18
Table 1.3.1  Activation of Stats in human cancers  20
Table 1.3.2  Inhibitors targeting Stat3 pathway  23
Table 1.3.3  Molecules targeting Stat3 currently in clinical development  23
Table 2.1.1  Cell lines used  26
Table 2.2.1  Drugs used  26
Table 2.3.1  Reaction parameters for gene amplification  27
Table 2.3.2  Reaction parameters for restriction digestion  28
Table 2.3.3  Reaction parameters for ligation  28
Table 2.3.4  List of subcloned genes  29
Table 2.4.1  Plasmids used  29
Table 3.2.1  Analysis of H-score from patient samples  49
Table 3.3.1  Analysis from Oncomine database  60
