I INTRODUCTION 1-16
II REVIEW OF LITERATURE 17-34
III MATERIALS AND METHODS 35-52
IV OBSERVATIONS AND RESULTS 53-88

4.1 Effect of intramuscular administration of azadirachtin on the weight of albino rats.

4.2 Effect of intramuscular administration of azadirachtin on the size of body of albino rats.

4.3 Effect of intramuscular administration of azadirachtin on the weight of liver, kidney, adrenal, pancreas, ovaries, testes, cauda and caput epididymis of albino rats.

4.4 Effect of intramuscular administration of azadirachtin on blood glucose level in albino rats.

4.5 Effect of intramuscular administration of azadirachtin on the histology of pancreas of albino rats.

4.6 Effect of intramuscular administration of azadirachtin on the diameter of testes, counting of spermatogonia, spermatocytes and spermatids of male albino rats.

4.7 Effect of intramuscular administration of azadirachtin on the diameter of seminiferous tubule, sperm motility, sperm counting and abnormal sperm counting of male albino rats.

4.8 Effect of intramuscular administration of azadirachtin on the histology of testis of male albino rats.
4.9 Effect of intramuscular administration of azadirachtin on the histology of ovaries of female albino rats.

4.10 Effect of intramuscular administration of azadirachtin on the histology of adrenal gland of albino rats.

4.11 Effect of intramuscular administration of various concentration of azadirachtin on the R.B.C. counting, W.B.C. counting, E.S.R., P.C.V., M.C.V., haemoglobin percentage, clotting time, bleeding time and differential leucocytes counting in male and female albino rats.

4.12 Effect of intramuscular administration of azadirachtin on total protein concentration of kidney, liver and pancreas in male and female albino rats.

V DISCUSSION 89-126

VI SUMMARY AND CONCLUSIONS 127-131
