I wish to express my sincere gratitude and deep respect to my mentors Dr. Amalesh Samanta, Associate Professor, Division of Microbiology, Department of Pharmaceutical Technology, Jadavpur University and Dr. Debprasad Chattopadhyay, Assistant Director (Scientist D), ICMR Virus Unit, for their able guidance, continuous support, as well as constructive suggestions and active involvement throughout this exploration. I must accept that without their novel ideas, lucid exposition, and constructive criticism this thesis would not have been possible.

I express deep gratitude to Prof. (Dr.) Lakshmi K. Ghosh, Head of the Department of Pharmaceutical Technology, Jadavpur University, for providing facilities to carry-out this work.

I am also very much indebted to Dr. Nirup Bikash Mondal and Dr. Sukdeb Bandyopadhyay, Scientists, Chemistry Department, Indian Institute of Chemical Biology, kolkata, for their enthusiastic help, humble guidance and constant encouragement throughout the progress of the work.

I am thankful to Indian Council of Medical Research (ICMR), Govt. of India, for providing me financial support in the form of fellowship.

I am grateful to Mr. Bira Kishore Parida, Senior Lab. attendant, who have helped me immensely during my project work.

A special tribute of gratitude goes to Mr. Rajendra Mahato, Chemistry Department, Indian Institute of Chemical Biology, for his invaluable help and constant cooperation regarding the isolation of natural product

Finally, I am very thankful and proud of my Parents, my sister Sarmistha GhoshGupta, brother-in-law Santanu Gupta, my brother Supratim and my friend partha who have been my strength and inspiration throughout my life. Whatever I have achieved today is because of the love and blessings of all my family members and I love and respect all of them from the bottom of my heart.
