Acknowledgement

At the outset I place my sincere sense of gratitude to my "Three Visible Gods" (Parents and Gurudev) for their timely help, sincere guidance, proper direction and lifetime scholarly support throughout the study.

I greatly value the academic help extended to me by Dr. Ravindran. P, former Director and Professor, Department of Pulmonary Medicine, Thiruvananthapuram Medical College. His inspiring supervision, guidance, scholarly assistance, kind treatment and encouragement helped me to complete the study as planned.

My thanks are also due to Dr. Balachandran Nair. P, Prof. and Head, Department of Cardiothoracic Surgery, Medical College, Thiruvananthapuram for giving permission to conduct this study in his department, timely help in tool preparation, and clearing doubts.

I extend my profound gratitude to Mr. Muraleedharan. S, former Assistant Professor, Medical Statistics, Clinical Epidemiology Research and Training Centre (CERTC), Medical College for his help in statistical analysis of the data and academic support.

I am owed to my brother Mr. Rameshkumar. K, Director, Software technopark (a central Govt. Institution under Department of Electronics), for his timely help in providing current and relevant literature material for writing the thesis and also for supporting with needed facilities.

I sincerely thank the former Prof. and Heads of Department of Cardiothoracic Surgery viz. Dr. Rajasekharan Nair. G, Dr. Velayudan Pillai. P, Dr. Krishnadas K.V. & Dr.Ramanarayanan. P.V. for their timely support in conducting this study.

I extend my profound gratitude to the higher authorities of me for doing needed help in time, especially Principals, Medical College, Thiruvananthapuram.

I am thankful to Dr. Raju. K, Dr. Mohan, Dr.Dinakaran, Dr. Shafeek, Dr. Rasheed, Dr. Bhaskar and all other staff (including nursing staff) of Department of Cardiothoracic Surgery, Medical College, Trivandrum for their co-operation in conducting this study effectively.
I place on record my sincere gratitude to Dr. Indu, Prof. and Head, Department of Microbiology, Medical College, Thiruvananthapuram for providing facility to do the culture and sensitivity test.

I take this opportunity to thank Dr. Anil Prabhakar, Psychiatrist for his help in preparing tool.

I am thankful to Dr. (Mrs) Exemmal. J, Reader, Department of Education, University of Kerala for her valuable correction and timely help for the conduct of the study.

I sincerely thanks to Directors, Staff and Students of College of Nursing, Thiruvananthapuram and Calicut for their help in conducting this study smoothly especially Mrs. Sreedevi Amma. C.

The investigator would like to acknowledge those people who have been particularly important in her life and career who have made it possible for her successful completion of this study.

I am very thankful to Librarians of Regional Cancer Centre, SCTIMST Library, College of Nursing Library, University Library, R.A.K., Medical College Libraries of Trivandrum and Calicut, CERTC, AKMG learning and research resource centre, for providing with the library facility.

I am owed to my brother Dr. Sathish Kumar.K, G.P., Department of Surgery, Park Hospital, London for his valuable suggestions.

I am very thankful to the Faculty of SNDT Women's University, Mumbai for their sincere help during the initial period.

I extend my profound gratitude to my Husband and family members for their constant support and encouragement throughout the tenure of this work especially to my nice Miss. Roshini.

I sincerely thank the Staff of Reji Computer, Medical College, Thiruvananthapuram for all computer and binding work.

I am thankful to Mr. Kurian, Statistician for his help in doing SPSS analysis.

I am grateful to Dr. Ravisankar. S. Nair, Asst. Professor, SCERT, Thiruvananthapuram for the effort he has taken in editing the thesis.

I am thankful to all patients for their co-operation.

I am indebtedly obliged to Dr. K. Jyothilal, Prof. & HOD, Govt. Ayurveda College for his help in editing and translation.

Prof. Sreekumary. D
