I hereby record my deep sense of gratitude and indebtedness to Prof. (Dr.) V. Sobha, Head, Department of Environmental Sciences, University of Kerala, for her invaluable guidance, supervision, constructive direction and support during the course of this study. It was her inspiration and sustained help, which helped me to complete this work in time.

I am indebted to Dr. N. K. Balasubramanian, Reader, Department of Aquatic Biology and Fisheries, University of Kerala, for his guidance and help rendered to me in the statistical analysis of the data.

I thank Dr. T. K. Anirudhan, Reader, Department of Chemistry, University of Kerala, for permitting me to carry out a part of the laboratory work in his esteemed laboratory.

I thank Sri. Sahayadasan, Manager (Quality control), Sri. Sasidharan, Hindustan latex Ltd., Peroorkada, Thiruvananthapuram and the General Manager, MILMA Diary, Thiruvananthapuram, for granting me permission to collect effluent from the respective factories.

Special mention must be made about Dr. G. M. Nair, Professor, Department of Botany and Dr. Narayanan Nair, Reader, Department of Geology for their advice and help during the course of this study.

I express my thanks to Dr. Gangadevi, Head, Department of Botany, University College, Thiruvananthapuram, and to Dr. M. N. Muraleedharan Nair (Scientist, CSD), Sri. G. K. Suchindan, (Head, CFD), Dr. N. P. Kurian (Head, MSD), and Dr. K. V. Thomas (Scientist, CSD) from Centre for Earth Science Studies (CESS), Thiruvananthapuram, for their encouragement during the course of this study.
The help and encouragement provided by the researchers; Mr. K. Ajayakrishnan, Mr. P. Unnikrishnan, Mrs. M. S. Bindu, Mrs. G. P. Gayatri, Dr. Mariam Saroj Edwards, Mr. M. Bijumoni, Mr. A. Krishnakumar, Mr. A.T. Aji, Miss. S. Sreevidya, Mr. R. S. Baiju, Mr. V. Santhosh, Mr. S. Santhosh, Mrs. V. K. Bindu, Miss. V. G. Asha, the staff members and the M.Sc. and M.Phil. students of the Department of Environmental Sciences are thankfully acknowledged.

I thank the authorities of the University of Kerala for granting me registration and financial assistance in the form of University Junior Research Fellowship.

The constant encouragement of my friends and co-workers of the Centre for Earth Science Studies (CESS) is hereby gratefully acknowledged.

I thank my colleagues at the Department of Botany, Marthoma College, Thiruvalla (Mahatma Gandhi University) for their constant encouragement.

I am grateful to all those who have helped me either directly or indirectly in this endeavor.

I am deeply obliged to Sri. G. Chellappan, my father; Smt. K. Lakshmikutty, my mother; Sri T. R. Suresh, my brother-in-law; Mrs. Ajimol Suresh, my sister; Master Arjun Soorej Suresh, my nephew and Baby Dilruba, my niece for their endurance, guidance and motivation, without which this thesis would never have been materialized.

I remember with gratitude the Almighty for the blessings showered on me at all times.
