

ACKNOWLEDGEMENTS

I take this opportunity with much pleasure to thank all the people who have helped me through the course of my journey towards producing this thesis. In the first place I would like to record my gratitude to my research supervisor Dr. D.S. JAYA for her patient presence, efficient guidance, creative suggestions and unstinting support throughout this study.

Also, I am deeply grateful to Dr V.R Prakasam, Professor and Head, Department of Environmental Sciences, University of Kerala, for his help to fulfill the official requirements of this research work.

I am indebted to Dr. V. Sobha Professor Department of Environmental Sciences, University of Kerala for the invaluable help and support. The help and encouragement provided by the faculty members Dr. Sabu Joseph (Senior Lecturer) and Dr. V. Salom Gnana Thanga (Senior Lecturer) Department of Environmental Sciences, University of Kerala is hereby acknowledged.

I am indebted to them more than they know. I gratefully thank Dr. Balasubramanyam (Rtd) Professor in Aquatic Biology and Fisheries and Dr. Sobhana (CMFRI) for their constructive comments on this thesis.

I would like to thank Dr. V. S. Vijayan, Chairman, Mr. Rajeev, Member Secretary, Dr. R.V. Varma, Project Manager, Prof. P. K. Mohan and Dr. M. K. Harinarayanan, Programme Coordinators, Kerala State Biodiversity Board Thiruvananthapuram who provided steady encouragement and moral support for the successful completion of my thesis work.

Many thanks to Dr. Jude Emmanuel (Project Scientist, KSPCB) whose editing suggestions and precise sense of language contributed to the final copy. I would also acknowledge Mr. Cibin, Mr. Sargapradeep and Dr. Renju Gopal for their advice and their willingness to share their experience in biochemical analysis, which was very fruitful for shaping up my ideas in research.

I convey special acknowledgement to Mr. Baijulal, Dr. Arun Kumar, Mr. Prigilal, Mr. Aneesh Breeze, Mr. Dipu, Dr. Kannan, Mr. Sunil Kumar, Mr. Partha sarathy, Miss. Jissy

Jyothy, Dr. Akhila, Mrs. Ragi. Mrs. Lekshmi, Mrs. Retlin Sundaragini, Ms. Jainy, Ms. Bindhya, Ms Manjusree, Miss. Shalini and Ms. Anza for their inseparable support.

It is a pleasure to pay tribute also to my friends Mr. Santhosh, Mr. Sujith, Mr. Rajashekar and Mr. Palpandy, Research Scholars, Researchers Hostel, University of Kerala for helping me in field visits and sample collection. The warm support of all my friends in researcher's hostel enabled me to complete this thesis and have a wonderful time along the way.

I would like to express my special thanks to Ms. Chithra who has been an inspiration on how to make things 'perfect'. I would like to thank administrative and technical staff members of department of environmental sciences who have been kind enough to advise and help in their respective roles. A number of teachers, friends and well-wishers encouraged me, stood by me throughout; right from the beginning to the successful submission of this thesis. Though I do not mention them, I remember them, each and everyone, for the help big and small, irrespective of its volume; great is my gratitude to them.

I am also greatly indebted to many teachers in the past. I'm also grateful to a few people not related to my work or the university. My Father, D. Raghavan, in the first place is the person who put the fundament my learning character, showing me the joy of intellectual pursuit ever since I was a child. My Mother, G. Galaja is the one who sincerely raised me with her caring and gently love. Sreejith and Renjith, my brothers thanks for being supportive and caring siblings. Finally, I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention personally one by one.

Above all I am always debt to the almighty for instilling in me the inevitable thrust and confidence in my hard times.

SREEJAI R.
