Preface	
List of tables	
List of figures	
List of plates	
List of abbreviations	

Chapter I: General Introduction

1.1	Wetlands of Kerala: Present Scenario	2
1.2	Back Waters / Estuaries of Kerala	7
1.3	Retting Process and its Biochemical Aspects	8
1.4	Ecology of Retting Zones	9
1.5	Hydrogen sulphide Toxicity	10
1.6	Oxidative Stress and Fishes	12
1.7	Relevance of the Study	16
1.8	Objectives of the Study	17

Chapter II: Hydrochemistry of Retting and Non-Retting Zones

2.1	Introduction	18
2.2	Review of Literature	19
2.3	Materials and Methods	22
2.4	Results and Discussion	28

Chapter III: Sediment Characteristics in the Retting and Non-Retting Zones

3.1	Introduction	69
3.2	Review of Literature	70
3.3	Materials and Methods	74
3.4	Results and Discussion	76

Chapter IV: Fish Diversity in Retting and Non-Retting Areas

4.1	Introduction	96
4.2	Review of Literature	97
4.3	Materials and Methods	100
4.4	Results and Discussion	

Chapter V: Studies on Morphological Index of Fishes in Retting and Non-Retting Areas

5.1	Introduction	105
5.2	Review of Literature	106
5.3	Materials and Methods	108
5.4	Results and Discussion	110

Chapter VI: Haematological Studies in Fishes of Retting and Non- Retting Areas

6.1	Introduction	114
6.2	Review of Literature	115
6.3	Materials and Methods	117
6.4	Results and Discussion	120

Chapter VII: Biochemical Studies with special reference to Lipid peroxidation in Fishes of Retting and Non-Retting Areas

7.1	Introduction	125
7.2	Review of Literature	129
7.3	Materials and Methods	132
7.4	Results and Discussion	138

Chapter VIII: Histological Studies in Fishes of Retting and Non-Retting Areas

8.1	Introduction	168
8.2	Review of Literature	169
8.3	Materials and Methods	173
8.4	Results and Discussion	174

Chapter IX: Aquarium Studies on Hydrogen Sulphide Contamination in Fishes

9.1	Introduction	181
9.2	Review of Literature	183
9.3	Materials and Methods	186
9.4	Results and Discussion	187
9.5	Histological Studies	225

Chapter X: Summary and Conclusion
