

LIST OF TABLES

		Page No
1	Classification Scheme for Wetlands of Kerala	3
2	Area under wetlands of Kerala	4
3	Major Backwaters/Estuaries in Kerala	5
4	Summary of the procedures for the Analyses of physico-chemical characteristics of Water	27
5	Seasonal variations in the Physical characteristics of surface and bottom water samples	60
6	Seasonal variations in the Chemical characteristics of surface and bottom water samples	61
7	Seasonal variations in the Chemical characteristics of surface and bottom water samples	62
8	Seasonal variations in the Chemical characteristics of surface and bottom water samples	63
9	Seasonal variations in the Chemical characteristics of surface and bottom water samples	64
10	Seasonal variations in the Chemical characteristics of surface and bottom water samples	65
11	Seasonal variations in the Chemical characteristics of surface and bottom water samples	66
12	Various analytical methods employed for the sediment textural and physico-chemical characteristics	75
13	Physico-chemical characteristics of sediment samples from Kadinamkulam estuary	93 & 94
14	Fin fish and shell fish diversity in the retting and non retting zones of Kadinamkulam estuary during pre-monsoon season	102
15	Fin fish and shell fish diversity in the retting and non retting zones of Kadinamkulam estuary during monsoon season	103
16	Fin fish and shell fish diversity in the retting and non retting zones of Kadinamkulam estuary during post monsoon season	104
17	Fulton's Condition Factor (FCF) in Pre monsoon season	112
18	Fulton's Condition Factor (FCF) in Monsoon season	112
19	Fulton's Condition Factor (FCF) in Post monsoon season	112
20	Physicochemical characteristics of aquarium water with Control group fishes	189
21	Physicochemical characteristics of aquarium water with T ₁ group fishes	189
22	Physicochemical characteristics of aquarium water with T ₂ group fishes	189

LIST OF FIGURES

		Page No
1	Location map of the study area showing the sampling stations	23
2	Graphical representation showing Lead concentration during different seasons	67
3	Graphical representation showing Manganese concentration during different seasons	67
4	Graphical representation showing Zinc concentration during different seasons	68
5	Graphical representation showing Iron concentration during different seasons	68
6	Triplot diagram showing textural classification of sediments	95
7	Fulton's Condition Factor of <i>Oreochromis mossambicus</i> in three different seasons	113
8a-8d	Haematological Parameters of fishes from Kadinakulam estuary	124
9a-9d	MDA content in different Fish tissues	159
10a-10d	GSH content in different Fish tissues	160
11a-11d	SOD activity in different Fish tissues	161
12a-12d	Catalase activity in different Fish tissues	162
13a-13d	GPx activity in different Fish tissues	163
14a-14d	GST activity in different Fish tissues	164
15a-15d	LDH activity in different Fish tissues	165
16a-16d	ALP activity in different Fish tissues	166
17a-17d	Protein content in different Fish tissues	167
18a-18d	Changes in haematological content in fishes exposed to H ₂ S	228
19a-19d	Changes in MDA content in different Fish tissues	229
20a-20d	Changes in GSH content in different Fish tissues	230
21a-21d	Changes in SOD activity in different Fish tissues	231
22a-22d	Changes in Catalase activity in different Fish tissues	232
23a-23d	Changes in GPx activity in different Fish tissues	233
24a-24d	Changes in GST activity in different Fish tissues	234
25a-25d	Changes in LDH activity in different Fish tissues	235
26a-26d	Changes in ALP activity in different Fish tissues	236
27a-27d	Changes in Protein content in different Fish tissues	237

LIST OF PLATES

**Plate
No**

- 1&2 Photographs showing study stations
- 3 Experimental animal *Oreochromis mossambicus* (Peters)
- 4 & 5 Histopathological changes in the liver of fishes in the control station and coir retting stations
- 6 & 7 Histopathological changes in the gill of fishes in the control station and coir retting stations
- 8 & 9 Histopathological changes in the kidney of fishes in the control station and coir retting stations
- 10 Histopathological changes in the liver of H₂S exposed fish
- 11 Histopathological changes in the Gill of H₂S exposed fish
- 12 Histopathological changes in the Kidney of H₂S exposed fish
