CONTENTS

ABSTRACT  Stereoselective synthesis of the macrocyclic core of
(-)-Salicylihalamides A & B  I-XVII

CHAPTER-I  Introduction to cancer and anticancer macrolides  1-16
Earlier approaches for synthesis of salicylihalamides A & B  17-30
References  31-34

CHAPTER-II Stereoselective synthesis of (-)-salicylihalamides A & B  35-50
Experimental  51-82
References  83-84
Spectra

CHAPTER-III
Section A: Three component coupling reactions: Synthesis of
Homoallylic amines  85-88
Experimental & References  89-97

Section B: Chemoselective allylation of aldehydes: Synthesis of
Homoallylic Alcohols  98-104
Experimental & References  105-114

Section C: Efficient Halogenation of Aromatic Systems Using N-
Halosuccinimides in Ionic Liquids  115-121
Experimental & References  122-130
