ACKNOWLEDGMENTS

In this eventful journey of my ethical flight in the Army I have had the honour of companionship of a number of people, colleagues, seniors and juniors and over and above the finest troops of the world. At the very onset I wish to express my gratitude to my guide Dr B B Rayate without whose motivation this study would not have been feasible. His guidance and support always helped me maintain momentum and focus on the subject under study. His suave personality, mature demeanour, his remarkable ability of foresightedness, vision and in depth appraisal of every issue was a source of tremendous inspiration for me.

I must pay homage to the indomitable spirit of my grandfather, Late Prof DH Butani a noted economist and scholar who had always goaded me to keep writing. The continued blessings of my grandmother Mrs Jamna Butani was the main reason behind this successful endeavour of mine. The constant support of my mother Mrs Indra Jiandani provided to me all the time, the requisite energy and motivation. My wife Bharati, MBA in HR from IGNOU has handled our two lovely daughters Vedika and Stuti and our home with ease and happiness. A major share of the credit of this project goes to her. I am extremely thankful and obliged to Mr Ashok Butani and Dr Promilla Butani for having scrutinized the work with valuable comments as also for Mr Ashok Butani for providing to me his team of editors and proofreaders for giving it the quality of production as is seen now. My father-in-law Prof CP Hingorani, a well known architect and exponent of Bhagwat Gita and meditation was a pillar of tremendous support which was omnipresent and invigorating.

It is at this juncture I express my special gratitude to Major General(Retd) R S Jambusarwala for having put in his entire service and experience behind this project. His critical and frank scrutiny and appraisal has given tremendous depth, meaning and significance to this subject. In many ways a mentor to me Major General (Retd) ) R S Jambusarwala will continue to receive my indebtedness for times immemorial.

Acknowledgements would be meaningless without a profound expression of gratitude to this magnificent organisation which has given so much to my family and myself. In particular I wish to place on record my deep and sincere gratefulness to the School of Artillery, Devlali which has been a fabulous source of relevant research material and information as also for the constant support I received from its environment.
