Somebody has rightly said, “Be thankful for what you have; you'll end up having more. If you concentrate on what you don't have, you will never, ever have enough”. First and foremost I would like to thank God, the supreme invisible power, for this life and blessing me with much more than I deserve.

At the outset, I wish to express my sincere and heartfelt gratitude to Dr. T.V. Lakshmi Kumar, Assistant Professor, Department of Physics and Nanotechnology, for his guidance, encouragement, advice and care given to me since I joined with him. His incessant support, kindness and inspiration made this Ph.D thesis a reality within a time. I owe my indebtedness for his sincerity, patience, deep concern and wholehearted support for the fulfillment of this thesis.

It is a pleasure to express my gratitude wholeheartedly to Dr. B.V. Krishna Murthy, Former Director of Space Physics Laboratory (SPL), Vikram Sarabhai Space Centre (VSSC), Trivandrum, who is a great inspiration to me, for his guidance, constant encouragement, support and valuable time. The scientific discussions with him were simply outstanding and amazing which helped me to bring out the best from me. I feel very fortunate and honoured to have an opportunity to work under his guidance.

My heartfelt gratitude to Prof. D. Narayana Rao, Director (Research), Directorate of Research and Virtual Education (DRVE), SRM University for his advice, motivation and encouragement throughout the course of the study.

I am grateful to Dr. M.S. Narayanan, Former Group Director, Space Application Centre, Ahmedabad for his useful discussions. My sincere thanks are due to Dr. K. Krishna Moorthy, ISRO Head Quarters, Bangalore and Dr. S. Suresh
Babu, Project Manager of ARFI, SPL, VSSC, Trivandrum for their useful discussions and timely help. Financial support rendered by ISRO for carrying out the ARFI project at Physics Department, SRM University, Chennai is highly acknowledged.

My special thanks to Dr. S.K. Satheesh, Professor, Centre for Atmospheric & Oceanic Sciences, Indian Institute of Science, Bangalore for his useful discussions for SBDART model. I am grateful to Dr. M. Venkat Ratnam, Scientist, National Atmospheric Research Laboratory, Tirupati for providing Ozone data from Radiosonde for the study.

I express my deepest gratitude to Dr. S.V. Kasmir Raja, Dean (Research), DRVE, SRM University for his encouragement and support. My gratitude is also extended to Dr. D. John Thiruvadigal, Professor & Head, Department of Physics & Nanotechnology, SRM University for his constant support and encouragement.

I would like to express my profound thanks to Dr. R. Balasubramaniam, Director, Science & Humanities and Dr. C. Muthamizhchelvan, Director, Engineering & Technology and, SRM University for the facilities provided to me.

I owe my sincere gratitude to our Chancellor, Dr. T.R. Parivendhar, President Dr. P. Sathyanarayanan, Chairman Dr. Ravi Pachamuthu, Pro-Vice Chancellor Dr. T.P. Ganesan, Vice Chancellor Dr. Prabir K. Bagchi, Registrar Dr. N. Sethuraman for their support for providing the platform for study.

I am thankful to India Meteorology department (IMD), Chennai for providing the meteorological data. MODIS, ECMWF, CALIPSO, SABER and NOAA Air Resources Laboratory (ARL) are acknowledged for usage of their data in the present
study. I am thankful to Dr. R. Kamala Kannan, Dr. Anish Kumar M. Nair and Dr. S.G. Basha, Dr. Mukunda M. Gogoi and Mr. Sobhan Kumar Kompalli for their kind advice and moral support during my research work. Journey of research and life would not have been so wonderful without the company friends like Madhu S, Sanjeev Dwivedi, Atinder, Deepti, Uma R, Pramita M, Hemanth A, Vishnu R, Sathish J, Imran Y.D, Durga G, Ravi R, Ajay P, Sarvani M, Arvind A and Vanmathi A and Suguna, who have always been a source of strength and refreshment. I wish to place on record my wonderful friends, to name a few, Sang Mang, Julie, Satya Kalai, Mahesh M, Mohana S, Kumaresan N, Murali G, Smita, Mathuri S, Mozhi, Nisha D, Arthi G, Maha, Ankita Mithra and Sundar H, who always boosted my morale in completing the task.

I am also very thankful to all staffs, research scholars and non teaching staffs of the Department of Physics for their support.

It is my pleasure to thank my Parents for their encouragement throughout my education. Mrs. Lalitha Krishna Murthy and Mrs. Sasikala Lakshmi Kumar for their kind advice on the many facets of life will go on a long way in shaping my career. Perhaps words are inadequate to express any kind of acknowledgement for my lovable husband Vijayakumar M, without whom I never would have made it through this process or any of the tough times in my life.

This work could not have been possible without the support of all the people I mentioned and many who were there to help in one thing or the other in the background. My heartfelt thanks go out to all of them.

ARUNA K
