Chapter-3

AIMS AND OBJECTIVES
3. Aim & Objectives

Research Question
Whether four classical varieties of Sahachara show different potencies as per physico-chemical parameters and Anti-inflammatory activity in experimental studies?

Aim
To compare the four classical types of Sahachara (Roots of Barleria sp.) on the basis of its Pharmacognosy and physico-chemistry with Acute Anti-inflammatory Activity in Albino rats.

Objective
To evaluate potent type of Sahachara with the help of Acute Anti-inflammatory activity and physico-chemistry.
