ACKNOWLEDGEMENTS

My research work has been very smooth and successful by God’s grace. Many individuals have helped and their wishes always encouraged me to complete this work. I would like to take this opportunity to acknowledge them all.

First and foremost, I would like to thank my Guide Prof. D. Narayana Rao, Director (Research) for his guidance, suggestions, moral support and constant encouragement to complete my thesis successfully.

I am grateful to Dr. M. S. Narayanan, Visiting Professor, former MOG Group Director, Space Applications Centre (SAC), ISRO, Ahmedabad, for his constant guidance, care, sound words of advice and kind encouragement throughout the course of my work.

I am indebted to Dr. M. Venkat Ratnam, Scientist, National Atmospheric Research Laboratory (NARL), Tirupathi and Dr. V. Sathiymoorthy, Scientist, SAC, ISRO, Ahmedabad. Their keen interest, dynamic encouragement, support and generosity helped me to complete this task in time.

My special thanks to Dr. B.V. Krishna Murthy, Visiting Professor, former Director, Space Physics Laboratory (SPL), Vikram Sarabhai Space Centre (VSSC), Trivandrum, for his suggestions and fruitful discussions which always helped in my research work. His scientific and analytical thinking gave a new dimension to my understanding.

My heartfelt gratitude to Dr. T. V. Lakshmi Kumar, Assistant Professor, Department of Physics, for his useful guidance from the first day of my joining in the
SRM University as JRF. My sincere thanks to Dr. Sanjay Kumar Mehta, Assistant Professor, Research Institute, for useful discussions and help.

I accord my sincere thanks to Dr. C. M. Kisthawal, MOG Group Director and Project Director of INSAT - 3D : Data Utilization for Science and Applications and Dr. Baby Simon, Scientist, Space Applications Centre (SAC), ISRO, Ahmedabad, whose discussions and encouragement helped me in moulding a good career in research. The financial support provided by SAC – ISRO for carrying out the INSAT - 3D low level monsoon inversion project at Directorate of Research and Virtual Education (DRVE), SRM University, Chennai is highly acknowledged.

The support from Dr. Ranjit Thapa, Dr. Paromita Chakraborty and Ms. Aruna K. to learn HYSPLIT Modeling and High-Performance Computing Cluster (HPCC) is gratefully acknowledged. My interaction at various stages with the scientists and researchers at SRM University, SAC, NARL, K. L. University, IMD Chennai, IIT – Delhi, have expanded the horizon of my knowledge for which I remain obliged to Dr. Ritesh Dubey, Dr. Arjit Sen, Dr. T. Narayana Rao, Dr. Yogini Vanikar, Dr. Sanjib Deb, Dr. P. K. Thapliyal, Dr. P. K. Pal, Prof. S. Vijaya Bhaskara Rao, Dr. S. G. Basha, Dr. Jagat Singh Bist, Dr. Venkat Bhaskar Rao Dodla, Dr. China Satyanarayana, Dr. Nachiketa Acharya, Dr. Ankita, Mr. Madhu S., Mr. Buddh Prakash Jangid, Ms. Swati Bhomia, Dr. Jyotirmayee Satapathy, Mr. Amit Kumar Pandit, Mr. Sunil Khadgarai, Mr. A. Sandeep, Mr. Hemanth, Mr. Tushar, Mr. Kamaljit, Mr. Bushar M.T., Mr. Ravindra Babu, Mr. Akhil Raj, Mr. Sivaraprasad Gampala, Mr. Dattatreya Gopi, Mr. Satish J, Ms. Poornadurga G., Ms. Manimozhi, Ms. Mathuri, Ms. Guru Nisha D, Mr. Aravind A., Ms. Saravani, Ms. Vanmathi, Ms. Sinthika, Ms. Ankita, Mr. Mathan, Mr. Raj Kamal, Ms. Smita Kumari, Mr. Bishwoop.
Thanks to all friends, research scholars, teaching and non–teaching staff members of the Physics Department and Research Institute, Mrs. Amutha, Sashikala, Mr. Nelson and Mrs. Sundari, Mr. Babu, Mr. Logesh and Mr. Gandhi of DRVE at SRM University.

I further express my gratitude Dr. S. V. Kasmir Raja, Dean (Research), DRVE, SRM University for his encouragement and support, My gratitude is also to Dr. D. John Thiruvadigal, Professor and Head, Department of Physics and Nanotechnology, SRM university for all the support I received from them. I would like to express my profound thanks to Dr. S. Ponnusamy, Controller of Examination, and Dr. R. Balasubramanium, Director – Faculty of Science and Humanities for the facilities provided to me.

I am thankful to India Meteorological Department (IMD), MOSDAC, NOAA, ECMWF, IASI, AIRS, NCEP/NCAR, ESO, University of Wisconsin, HYSPLIT model – Air Resources Laboratory (ARL), Google, Wikipedia are acknowledged for usage of their data in the present work. It was vital for the completion of my thesis.

This work is dedicated to my father Shri Sham Badan Dwivedi and mother Smt. Shail Dwivedi. My elder brother Mr. Satinder Dwivedi and sister-in law Dr. Mandavi Dwivedi have taken all the care during my stay at Chennai which helped me to be focussed. I cannot forget our home little cute angels Seerat, Inika and Morisha who used to rejuvenate me. Words are perhaps inadequate to express my heart felt thanks to my sister Mrs. Vandana Dwivedi and brother – in – law Mr. Prem Shanker Dubey, who have always been a source of strength and encouragement for my work. This thesis for my doctorate is an important milestone to make my parents’ dream come true.

Sanjeev Dwivedi
