List of Figures

Figure 1.1 e-Learning Based Outcomes ...........................................7
Figure 1.2 Knowledge v/s Time 1............................................... 12
Figure 1.3 Knowledge v/s Time 2............................................. 12
Figure 1.4 Scenario of Adaptive e-Learning.............................. 20
Figure 2.1 Cycle of Experiential learning................................. 35
Figure 3.1 Internet users worldwide........................................ 51
Figure 3.2 Broadband connectivity.......................................... 51
Figure 3.3 Numbers of Questions Asked and Answered in Classrooms vs. One-on-One Tutoring Session – One Hour....................... 52
Figure 4.1 Main components of the Knowledge Tree distributed architecture .................................................................................. 89
Figure 4.2 A user view of a lecture in the KnowledgeTree portal showing links to various external learning activities................................................. 91
Figure 4.3 A user view of the knowledge map and the content of a particular cell in Knowledge Sea portal................................................................. 92
Figure 4.4 Adaptive access to annotated examples through the NavEx service.......................................................................................... 94
Figure 4.5 A view of an online C tutorial page through the annotation service AnnotatED.............................................................. 95
Figure 4.6 Centralized student modeling in CUMULATE................... 97
Figure 5.1 Relating design and runtime adaptation......................... 107
Figure 5.2 A schematic overview of a unit of learning in IMS LD.......108
Figure 5.3 The narrative for the validation.................................... 110
Figure 5.4 A proposed screen shot of the interface....................... 112
Figure 5.5 Proportion of Internet Awareness ............................ 114
Figure 5.6 Responses recorded on e-Learning awareness survey……115
Figure 5.7 Usefulness Index of e-learning in classroom teaching……116
Figure 5.8 Awareness of Virtual Environment for e-learning……117
Figure 5.9 Usages of Mobile Internet……………………………………118
Figure 5.10 Scale Given by Respondents for Requirement of Adaptive e-
Learning……………………………………………………………… 119
Figure 5.11 e-Learning v/s Class Room Teaching-Learning…………121
Figure 5.12 Adaptability of e-Learning in Context of Cost…………122
Figure 5.13 Effectiveness Analysis of e-Learning……………………123
Figure 6.1 Analysis of awareness……………………………………139
Figure 6.2 PENTHA Model…………………………………………160
Figure 6.3 “STANDARD READY” Architecture (Model 2)……162
Figure 6.4 Proposed Model…………………………………………164
Figure 6.5 Virtual Classroom of Kachchh University, Bhuj, Gujarat, India……………………………………………………………………….169
Figure 6.6 A starting screen to enter in to learning environment……170
Figure 6.7 How to use the adaptive e-Learning environment……170
Figure 6.8 How to use the adaptive e-Learning environment……171
Figure 6.9 How to use the adaptive e-Learning environment……172
Figure 6.10 How to use the adaptive e-Learning environment……173
Figure 6.11 How to use the adaptive e-Learning environment……174
Figure 6.12 Expected Outcomes……………………………………177
