Acknowledgement

In a journey of research programme, I came in contact with good people at the right time, who helped me directly or indirectly. I will always have my deep sincere gratitude towards them. However, I feel obliged to acknowledge the special contribution of some of these persons who helped in completing this research. First and foremost, I would like to thank God who blessed me with luck, strength, knowledge and helpful people to fulfill my ambitions towards achieving this target.

First of all, I am thankful to my guide and supervisor Prof. Dr. Kanchan C. Khare, for showing research vision, continuous motivation and spiritual support, inculcating research culture, her consistent efforts towards the improvement, involvement in the subject and making me to think. I thank her immensely for always being there when needed. It is my honor and privilege to work with her all these years. The discussions with her have helped me a lot giving me spiritual energy for which I will always remember her in future life. I also thank her for creating confidence in me so that everything was possible with minimum efforts. Besides being an excellent Professor, Supervisor and Administrator, she is a ‘Great Human being’. I am thankful to my Co Guide Dr. A.H. Biradar, who has always shown the right path and continuously supported, motivated me giving valuable suggestions.

I would like to express deepest gratitude to Prof. M. N. Navale (Founder President, STES Pune), Dr. Mrs. Sunanda M. Navale (Founder Secretary, STES Pune) and Mr. Rohit M. Navale (Vice President, STES Pune) for providing infrastructure facilities, continuous support and motivation for the research work, without which research could be incomplete. I am sincerely grateful to STES Directors and Management for encouraging and supporting always. I am thankful to Prof. Dr. S.D. Lokhande, (Principal, SCOE) and Prof. Dr. A. S. Padalkar (Ex. Principal, SCOE) for continuous motivation and support. I am thankful to Prof. Dr. Kanchan C. Khare, (Vice-Principal SCOE and HOD Dept. of Civil Engg.) for continuous encouragement, support and help. I am thankful to Prof. Dr. M. R. Shiyekar (Ex. HOD, Dept. of Civil Engg.) for motivation and giving freedom to do research.

I am thankful to Prof. Jim White, Southampton University UK, for providing LDAT simulator and solving our all queries very efficiently and visiting Sinhgad College of Engineering on our invitation. The discussions with him were very useful. He is ‘Simply a Great Person’. I am thankful to Dr. A.D. Patwardhan and Prof. Dr. S.N. Londhe (VIIT, Pune) for motivation and enlightening knowledge. I am thankful to Mr. Suresh Jagtap (Commissioner SWM, Pune
Municipal Corporation) and his staff for providing valuable information and help at landfill site. I am thankful to the rag pickers at landfill for helping in waste characterisation study.
I would like to acknowledge the financial support from AICTE New Delhi (RPS Scheme) and BCUD University of Pune for providing necessary funds to conduct and complete the research. Without this support huge experimentation was not possible. I am thankful to staff of workshop and Acrycraft for the support and for the development of elegant experimental setup.
I am thankful to Dr. Pradeep Dhaamole (HOD Biotech), Dr. Veena Doss (Chemical Dept.), Dr. R. S. Shewale (Math Dept.) and Suman Jain who have helped a lot during the writing of the Journal paper and giving valuable inputs and suggestions. I am thankful to Reviewers and Editors of journals for excellent guidance and criticism, which improved the content of research work.

I am thankful to all the teaching and nonteaching staff of Civil Engineering Department for being supporting always. I am thankful to all the faculty of Civil Engineering including Suman Jain, Sameer Shastri, Vaishali Limaye, Dr. N.J. Sathe, D.S. Aswar and P.B. Kodag for continuous support, motivation, and valuable suggestions. I am thankful to research group member G.A Hinge, Shruti Tikhe, Deepali Vaidya and Mrunal Jadhav for supporting, giving valuable suggestions and extending help in all the activities. I shall not forget to mention Mr. V. R. Ingole, for his assistance received during the study which is highly appreciable. I am thankful to Rahul Mali for helping to draw figures and for fabrication of second trial experimentation. I am thankful to B.E. Civil students of batch 2007-08 who helped for the MSW characterisation study and batch 2010-11 (Sandip & Tanmay) for assisting in every stage of experimentation with enthusiasm, dedication and hard work.

I am thankful to all my friends, who have kept me always cheerful, fresh and active. Special thanks to Pralhad Walwekar (Research Scholar IIT Roorkee) whom I used to used to call and discuss for hours and hours to freshen up to further accelerate the work. Special thanks to small fairy, Gaurangi (Chiu), who released all my stresses when I came home and refreshed me which enthused energy for research.

I am thankful to my wife Gayatri for her moral support, encouragement and the gift she has offered in form of healthy son, Bhavartha. Last but not the least; I am thankful to my parents and family members for continuous support, motivation, help and allowing me to do my work efficiently and effectively.

Sandip Tanaji Mali
