ACKNOWLEDGEMENTS

I would like to express my deep sense of regard and gratitude to my revered supervisor Dr. G. Balakrish Nair, Ph D., Deputy Director, National Institute of Cholera and Enteric Diseases (NICED), Calcutta for his continuous and untiring guidance, positive attitude, optimistic views and incessant encouragement that has been my sole source of inspiration during the course of this work.

I am greatly indebted to Dr. S.K. Bhattacharya, M.D., Director, NICED, Calcutta for his constant help and encouragement during the period of my study.

I wish to express my deep gratitude to Dr. B.C. Deb, Ex-Director Grade Scientist and Dr. S.P. De, Senior Deputy Director, NICED, Calcutta for their kind help and valuable suggestions in carrying out the work.

I would like to express my heartfelt thanks to Dr. T. Ramamurthy (presently working as a Guest Research Scientist, National Children’s Medical Research Centre, Tokyo, Japan); Ms. Surabhi Garg (New Horizon Diagnostics Corporation, Colombia, USA), Dr. R.K Ghosh (Indian Institute of Chemical Biology, Calcutta) and Dr. Amit Pal (National Children’s Medical Research Centre, Tokyo, Japan) for their constant help, encouragement and valuable suggestions during my study.

I am greatly indebted to Prof. Y. Takeda (Director-General, Research Institute, International Medical Centre of Japan, Tokyo, Japan) and Dr. T Takeda (Department of Infectious Diseases Research, National Children’s Medical Research Centre, Tokyo, Japan) for their constant help and continuous encouragement during my entire study period and also for providing me valuable assistance in the work concerned with Vibrio cholerae O139.

Contd.
ACKNOWLEDGEMENTS

I would like to express my sincere thanks to Dr T. Shimada (National Institute of Health, Tokyo, Japan) for the serotyping data of the clinical strains isolated in the study period.

I find pleasure to acknowledge my friends and colleagues, Dr. A.R. Ghosh (Research Officer, Regional Medical Research Centre, Port Blair), Pradip, Hemanta, Rupak, Arnab, Indira, Soumen, Debjit, Shampa, Prasantada, Mousumidi, Dalibyadi, Abhijuda, Krishnuda, Shyamalidi, Nayanda, Debashish, Sanjib, Elizadi, Krishna, Aloke, Jayanta, Sangeeta, Nurda, Manjira, Sudiptada, Ranjan, Biswajit, Dibyakanti, Supritidi and Papiya for their constant supportive help and encouragement.

I would like to express my gratitude to all respected teachers and staff of the Physiology Department of Rajabazar Science College, Calcutta for their co-operation.

My sincere thanks go to Mr. Subodh Karmakar for his skillful and excellent typing and all the help in the preparation of my thesis.

I am also thankful for the help extended by Mr S S Ray and Mrs K. Roy, Librarians of our Institute.

I express my thanks to the Department of Biotechnology (DBT) and the Indian
