Acknowledgement

Enlistment of the endless number of people whose advice, encouragement, knowledge and support have made this possible, is virtually impossible for me.

The most difficult task is to thank Prof. B. R. Maiti, Department of Zoology, University of Calcutta who has always been my inspiration. He is so caring and cordial that I cannot explain it in my words. Your guidance and motivations for years enable me to keep up my patience to complete this work. I am honored to have had the golden opportunity of getting invaluable advice from you in my research work.

I would like to express my deep gratitude to Dr. Urmi Chatterji, Reader, Department of Zoology, University of Calcutta, for her constructive suggestions and endless help all through my research work. Her affections boosted up my spirit to do the tasks even during the busiest schedule in my college.

I am extremely grateful to the present and past Heads of the Department of Zoology, University of Calcutta especially Prof. Samir Banerjee who selected me as a fellow in UGC Major research project to do the work in the University of Calcutta and enrolled me in the research programme.

My heartfelt thanks go to Dr. Tapas Chandra Nag (AIIMS New Delhi), who lent his invaluable time to teach me how to identify and interpret ultra-structural changes under the sophisticated EM which has enhanced the quality and importance of work.

I consider myself as an extremely fortunate person to be under the tutelage of Dr. Santasri Sengupta for her scientific knowledge to make my experiments fruitful.
I express my grateful thanks to Prof. D. Nag (Department of Biochemistry, Guru Nanak Dental College, Kolkata) who helped me whenever I approached him to estimate the hormones by ELISA method.

I gratefully acknowledge the help and enthusiastic assistance rendered by seniors like Dr. Prajna Paramita Basu, Dr. Supriti Sarkar, Dr. Romi Dasgupta, Dr. Hari Prasad Sarkar and Sri Puranjan Das. I also wish to express my sincere thanks to my laboratory companions Anushree Mondal, Aniruddha Chatterjee, Subhadipa Majumder, Ankur Bhowal and Piyasi Mukherjee who always provided an excellent working environment. I would like to thank Ms. Ruby Das for the excellent typographic assistance.

I also wish to extend my thanks to Dr. P.K. Roy, Principal and colleagues of Sarsuna College who supported and co-operated me to carry out my works through these days.

I am privileged to have my friends, Suman, Suchandra, Sameek, Trisha, Moumita and Adity, who always shared every moments of my thesis work.

Last but not the least my family especially my wife, mother, father, brother, aunt, in-laws and Uttam (driver) continued to provide encouragement and wholehearted support to me till completion of the thesis.

Indraneel Saha
