ACKNOWLEDGEMENT

I express my sincere thanks and deep sense of gratitude to my research guide for his continued guidance, valuable suggestion and constructive criticism throughout the course of this investigation.

I am grateful to Dr. A. Sen, Scientist, Indian Institute of Chemical Biology, Calcutta for his help in structural elucidation.

I extend my thanks to Dr (Mrs). R. Mishra, Lecturer, Department of Physiology, University of Calcutta, for her kind assistance, help, inspiration and mental boosting during the study.

I thank Mr. P. Bhattacharjee, Mr. S. Bhattacharya and Miss. M Dasgupta, for their kind help and suggestions.

My sincere thanks to the teaching & non-teaching staffs of the Department of Physiology, University of Calcutta for extending all relevant help concerning the study.

I also wish to thank my parents, in-laws and my husband for their support, cooperation and patience, without which the completion of my work would not have been impossible.

Finally, I wish to thank the Bio- Medical Division, Indian Council of Medical Research, and New Delhi, India for the award of my fellowship, which made it possible to carry out the present investigation.
