ACKNOWLEDGEMENTS

It is by the love and blessings of the Almighty, that I have been able to complete my studies successfully hitherto and present this piece of work for which I am eternally indebted.

It is with a deep sense of gratitude that I express my sincere and heartfelt thanks to Prof. (Mrs.) K. Indira Sriram, Department of Zoology, S.V. University, Tirupati. I am extremely grateful for her invaluable guidance, inspiration, constant and untiring interest and unstinted encouragement throughout the course of this investigation and in executing the work and preparing the manuscript. I thoroughly enjoyed my association with her, especially the immemorable scientific arguments which she invariably won. It was an inextinguishable treasure of pleasure for me to work under her excellent guidance.

I deem it my bounded duty to express my deep sense of gratitude and indebtedness to Dr. W. Rajendra, Associate Professor and Dr. K. Sathyavenu Reddy, Assistant Professor, Department of Zoology, S.V. University, Tirupati for their constructive suggestions and encouragement at all stages of my work which enabled me to complete this work successfully. My deepest thanks to Dr. K. Sathyavenu Reddy for timely providing me the chemicals (a-tocopherol, soybean oil) and recent literature which I needed them most.

I sincerely thank Prof. K. V. Ramana Rao, Head and Chairman, BOS, Department of Zoology for providing facilities to carry out this work successfully.

I am in dearth of words to express my unbounded gratitude and love to my beloved venerable parents Smt. P. Shanmugamma and Sri P. Sugunakara Reddy who sparked the spirit of enthusiasm, constantly inspired, educated, guided and moulded me into the present position and whose encouragement brings out the best in every one of endeavours. It remains less even if I say a lot about them.

Diction is not enough to express my love from the inner core of my heart to my miracle makers, my childhood friends, my very affectionate sister Mrs. P. Hemalatha, brother P. Uma Sankar (B.Tech.) and brother-in-law Mr. B. L. Babu who sparked my life with happiness, enthusiasm, excitement, ambitions, aspirations and who gave wings to my ideas and made me fly high.

Words fail me in expressing my love, unbounded gratitude and regards to my very affectionate brothers, P. Gnanan Prasad (USA) and P. Umashankar, sister P. Jalaja who have been a constant source of encouragement in fulfilling my ambition. I am very much indebted to my brother for providing the proceedings of the 6th International symposium on Guanidino compounds and in collecting recent literature (IISc, Bangalore).

Words fail to express my gratitude for worthy help rendered by my seniors Dr. S. V. Ramana Rao, Dr. V. Lokanatha, Dr. Ch. Jhanai Lakshmi, Mr. Sreekant, Mr. Rajasekhar, Mrs. Sharmila, Mr. Bhaskar Reddy, Mr. Bhaskar, Mr. Gurumurthy, my colleagues Mr. Chandrasekhar, Mr. Hari Prasad and Ms. Syamaala. I would like to thank animal keeper Mr. K. Aryaneyulu Raju for his help in maintaining the animals.
I am very much thankful to Dr. K.V.S. Sarma, Associate Professor, Department of Statistics, S.V. University, Tirupati for his help in statistical analysis.

I am very much thankful to Dr. Sai Ram Reddy, for providing me with some useful literature. A very special thanks goes to Dr. Sreekant Chakradar for his help in collecting literature.

I am very grateful to Ms. B. Padmavathi, JNU, New Delhi, for her help in providing some relevant literature.

A very special mention to my friends Shafeek, Aruna, in the department and Ch. Sujatha, Jyothi, Aparna and all other friends within the campus for their companionship and help in innumerable ways.

I would like to thank the staff, Nithin Karthik Xerox, Tirupati for their excellent timely technical support.

Last but certainly not least, I thank one and all, who have come their way to help me directly or indirectly during my stay.

P Sarada
