ACKNOWLEDGEMENT

First of all, I would like to thank Dr. (Mrs.) S.S. Joshi, my guide for her help, guidance and support throughout the course of this research work. Her cooperative attitude has helped me a lot during the course of these investigations.

I wish to express a deep sense of gratitude to my research co guide Dr. S. Kapoor for his constant encouragement for the successful completion of this work. His inspiring guidance and constant motivation have helped me to understand better and remain optimistic. I preserve an everlasting gratitude for him.

I am grateful to Prof. B. S. M. Rao, former head of chemistry department and Dr. Tulsi Mukherjee, director, chemistry group, BARC for giving me the opportunity to work under this MOU and providing the basic infrastructure for my research work at the department of Chemistry as well as BARC, Mumbai. They have always wholeheartedly encouraged me during the course of this work. I would like to thank Prof. S. B. Patdhye, the present head of the department of chemistry for all the facilities provided by him.

A very special note of thanks goes to my father, not only for the constant encouragement and support he gave me but also for the enormous time and effort that he spent guiding and helping me during the course of this work.

Thanks to all my senior labmates, Nimase Sir, Nalawade Sir and Mayur for their help. My heartfelt thanks to labmates Prajakta, Anuj, Priya and Supriya who have always been there when I needed them and created a pleasant atmosphere to work.

I am highly indebted to all my labmates, Anjana, Jasmine, Kunal, Suraj, Dillip, Parmila, Rohini and Medha at the RPCD division in BARC, Mumbai, for their valuable help and cooperation given to me in completing my research work successfully. I express my sincere thanks to the scientific officers, Dr. Nandita, Dr. Mahal, Teena, Sumana, Suzy, Mr. V. N. Rao, for their timely help and kind cooperation.

I also thank all the senior scientific staff in the Catalysis Division, NCL, for their help on various occasions. My special thanks go to Dr. Gopinath, Dr. Halligudi and Violet madam.

The cooperation I received from my teachers at the department of chemistry is gratefully acknowledged. I will be failing in my duty if I do not mention the accounts
officers, Mr. Sutar, Mr Jagtap Mr Sudarshan and other non-teaching staff for their timely help.

The thesis could not have been completed without the endless love and blessings from my family. I wish to thank my parents, who taught me the value of hard work and rendered enormous support to me during the whole tenure of my research work. My heartfelt thanks to my in-law parents, my brother Uday and sister-in-law Deepa for their love, encouragement and support throughout.

Finally, a special thanks to my husband Hrishi without whose support this would have never been possible. He is the person who supported me in each and every respect during this work.

— Shweta Hegde
