

## **ACKNOWLEDGEMENT**

*This thesis includes a part of the research work carried out by me during my tenure as a research fellow in the **Department of Polymer Science & Technology**, University College of Science & Technology, University of Calcutta, Kolkata since February, 2009.*

*I must acknowledge all those people who have contributed to the work described in this thesis. This is an impossible task, as many people have helped to design, implement, apply, criticize, sponsor and evangelize the work. I am going to try anyway, and if your name is not listed, rest assured my gratitude is not less than for those listed below.*

*At the outset, I wish to thank my supervisor **Professor Priyabrata Sarkar** for constant support and encouragement. His ability to identify new issues quickly and meticulous interest in minute details is something that I have tried to learn and this will certainly help me in the years to come. I am really grateful to him for being a patient supervisor and for supporting this work with ideas, criticism and encouragement. Without his active support I would have been nowhere. I owe all my knowledge and skills about biosensors. I would never forget his fatherly affection.*

*I pay my sincere gratitude to my senior co-workers **Dr. (Mrs.) Kakoli Dutta, Mrs. Suchanda Bannerjee, Mrs. Sreela Pal Basak, Mrs. Sudeshna Dutta** for their continuous co-operation and friendly assistance. I have enjoyed the warm friendship of my numerous junior co-workers namely **Ms. Tanushree Ghosh, Ms Joyati Das, Mrs. Suparna Saha, Ms. Sarani Sen, Mr. Sudip Bandyopadhyay**. I am grateful for receiving all sorts of help from my senior **Mrs. Suchanda Bannerjee** whenever I needed. I feel blessed to have a friend-cum-sister in my co-worker **Ms. Tanushree Ghosh** since I received all possible help from her. I convey my special thanks to our laboratory attendant **Rakesh Dey (Raja)**.*

*I shall remain ever thankful to all the other students and staff of Department of Polymer Science and Technology and Department of Biotechnology, University of Calcutta, for giving me all these opportunities.*

*The help extended to me by the authority and staff of University of Calcutta deserves a special mention. I convey my sincere thanks to the Department of Science and Technology (DST), India and University Grants' Commission, India for providing me research grants.*

*I express my heartfelt indebtedness to my parents who helped me in the time of frustration and distress. My mother Mrs. Rina Panda and my father Mr. Partha Sarathi Panda supported all my decisions whole-heartedly throughout my life. I am thankful to my uncle Dr. Shyamal Bej for all his help and affection. My special thanks to my uncle Dr. Sampriti Nanda for all his help, affection and concern; without his help my work would never have been completed. I am also thankful to my aunt Mrs. Lina Nanda for her care and affection and to my brother Prithish Nanda for many technical help, and also to my extended family and friends namely, Mrs. Amrita Chakraborty, Dr. Abhishek Chakraborty, Antara Das, Sabilaa Rahman, Sulekha, Susmita, Kamala, Suvankar, Subrata for being there for me, whenever I needed. Last but not the least; I must thank my best friend Satyajit Roy for being in my life.*

*Finally I owe to the Almighty God for his wonderful blessings I ever had.*
