Index

(a, β)-inverse, 8
γ-unity

Γ-group congruence, 20
left, 12

Γ-semigroup, 1, 5
right, 12
E-inversive, 107
m-system, 155
E*-inversive, 107
n-system, 158
inverse, 18
annihilator

left inverse, 72
left, 26
orthodox, 19
right, 26

prime, 27
antimorphism, 82
Rees matrix, 6
associated semihypergroup, 140
regular, 6
congruence, 9
right inverse, 72
idempotent separating, 9
right strongly prime, 26
left, 9
simple, 19
Rees, 23
left, 19
right, 9
right, 19
divisor of zero, 115
uniformly left strongly prime, 37
essential extension, 43
uniformly right strongly prime, 37
Green's relation, 16
uniformly strongly prime, 38
hereditary class, 29
Γ-subsemigroup, 10
homomorphism, 8
partial, 114
hull-kernel topology, 49
hypergroup, 21
hypergroupoid, 20
hyperideal
  left, 146
  maximal, 154
  principal left, 147
  principal right, 147
  prime, 153
  right, 146
  semiprime, 157
hyperoperation, 20
ideal, 10
  essential, 43
  left, 10
  principal, 10
  principal left, 10
  principal right, 10
  right, 10
  uniformly strongly prime, 36, 39
ideal extension, 115
idempotent, 138
idempotent semihypergroup, 138
inverse subset, 145
left E-Γ-semigroup, 113
r-hypergroup, 137
regular element, 6
right E-Γ-semigroup, 113
sandwich matrix, 6
sandwich set
  left, 69
  right, 69
semidirect product, 82
semigroup
  E-inversive, 106
  left inverse, 72
  operator
    left, 12
    right, 12
  orthodox, 19, 58
  right inverse, 72
  right strongly prime, 25
  uniformly strongly prime, 36
semihypergroup, 20
  commutative, 141
  regular, 143
special class, 45
structure space, 49
subsemihypergroup, 138
super t-system, 46

t-system, 42

weak inverse, 108
weakly normal family, 127
wreath product, 102
