

List of Figures

Figure No	Figure Title	Page No
1.1	Roman Lycurgus bronze cup at the British Museum, lit from the outside (left) and from the inside (right)	45
1.2	The quantum image for different case of scattering	46
1.3	Schematic diagram of the four-step process of the photon- driven charge transfer model for a molecule adsorbed on an electrode	47
1.4	a) energy level diagram for molecule to metal system (lines-filled levels, dots-unfilled levels) b) molecule to metal charge transfer transition c) metal to molecule charge transfer transition	48
2.1	Schematic representation of the synthesis process	81
2.2	Schematic representation of instrument modulus of Ultraviolet spectroscopy	82
2.3	Schematic representation of XRD Instrumentation	83
2.4	Schematic representation of SEM	84
2.5	Schematic representation of EDS detector	85
2.6	Schematic representation of TEM	86
2.7	Schematic representation of a laser Raman System	87
3.1	X-Ray diffraction pattern of prepared Ag NPs	102
3.2	UV-Visible spectrums of prepared Ag NPs	103
3.3	HR-TEM images of prepared Ag NPs in different magnifications	104
3.4	FE-SEM images of prepared Ag NPs	105
3.5	Energy Dispersion Spectrum (EDS) of prepared Ag NPs	106
3.6	Structure of N-(1-(2-chlorophenyl)-2-(4-nitrophenyl)ethyl)-4-methylbenzenesulfonamide (CNPSA)	107
3.7	Normal Raman spectrums (nRs) of CNPSA molecule	108
3.8	Surface Enhanced Raman Spectrums (SERS) of CNPSA molecule on Ag NPs	109
4.1	X-Ray diffraction patterns of prepared Ag NPs	124
4.2	UV-Visible spectrums of prepared Ag NPs	125
4.3	HR-TEM images of Ag NPs in different magnifications	126

4.4	FE-SEM images of prepared Ag NPs	127
4.5	Energy Dispersion Spectrum (EDS) of prepared Ag NPs	128
4.6	Structure of N-(1-(4-fluorophenyl)-2-(4-nitrophenyl) ethyl)-4-methylbenzenesulfonamide (CFSA)	129
4.7	Normal Raman Spectrums (nRs) CFSA molecule	130
4.8	Surface Enhanced Raman spectrums (SERS) of CFSA molecule on Ag NPs	131
5.1	HOMO and LUMO plot of BMANQ molecule and BMANQ molecule on Ag NPs	146
5.2	Structure of 2-bromo-3-methylamino-1,4naphthoquinone (BMANQ)	147
5.3	Normal Raman Spectrums (nRs) BMANQ molecule	148
5.4	Surface Enhanced Raman spectrums (SERS) of BMANQ molecule on Ag NPs	149
6.1	Structure of 1,4-dibromonaphthalene (1,4-DBrN)	160
6.2	Normal Raman Spectrums of 1,4-DBrN molecule	161
6.3	Surface Enhanced Raman Spectrums (SERS) of 1,4-DBrN on Ag NPs	162
6.4	HOMO and LUMO plot of (a) 1,4-DBrN molecule and (b) 1,4-DBrN molecule on Ag NPs	163
7.1	HOMO and LUMO plot of (a) DMNMAD molecule and (b) DMNMAD molecule on Ag NPs	180
7.2	Optimized geometries of (a) DMNMAD molecule and (b) DMNMAD molecule on Ag NPs	181
7.3	Normal Raman Spectrums (nRs) of DMNMAD molecule	182
7.4	Surface Enhanced Raman Spectrums (SERS) of DMNMAD on Ag NPs	183
8.1	Structure of 1,4-dimethoxy-3-bromomethylathracene-9,10- Dione (DMBMAD)	196
8.2	Normal Raman spectrums (nRs) spectra of DMBMAD molecule	197
8.3	Surface Enhanced Raman (SERS) spectrums of DMBMAD on Ag NPs	198
8.4	HOMO and LUMO plot of (a) DMBMAD (b) DMBMAD on Ag NPs	199
