

LIST OF TABLES

Table No.	Description	Page No.
2.1	Event Triggered Vs Time Triggered	13
5.1	Task allocation on ECUs from respective warehouses for 50 Nodes	67
5.2	Task allocation on ECUs from respective warehouses for 25 Nodes	68
5.3	Task allocation on ECUs from respective warehouses for 30 Nodes	70
5.4	Task allocation on ECUs from respective warehouses for 35 Nodes	71
5.5	Task allocation on ECUs from respective warehouses for 40 Nodes	72
5.6	Task allocation on ECUs from respective warehouses for 45 Nodes	73
5.7	Comparison of algorithms based on best solution for task allocation	74
5.8	Comparison of algorithms for nodes from 25 to 50 based on best solution for task allocation	76

LIST OF FIGURES

Fig. No.	Description	Page No.
2.1	Collision of Event Triggered Messages on a Bus	11
2.2	Message Transfer in Time Triggered Environment	11
2.3	Fault Tolerant units in a cluster	14
2.4	A typical TTP Node	14
2.5	(a) TTA scheme with Electronic Modules connected by replicated Communication Channels (b) Cluster cycle representation	17
2.6	Optimization Process Flow	19
2.7	Optimization Parameters	19
3.1	(a)-(c) Greedy Routing Behavioral Diagrams	33-34
3.2	Simulated Annealing representation	35
3.3	Ants Behavioral Path	37
3.4	Genetic Algorithm Model	39
3.5	Chromosome format mapped with Tasks on Nodes	41
3.6	Single point crossover operation	42
3.7	Two point crossover operation	42
3.8	Simple Mutation process	42
3.9	Block Diagram of Proposed Method	43
3.10	Process Flow Diagram	45
4.1(a)	Node Locations	48
4.1(b)	Optimum Scheduled Task Allocation on Nodes	48
4.1(c)	Graph representing Best Solution	49
4.2(a)	Node Scheduling for 25 Nodes	50

4.2(b)	Node Scheduling for 30 Nodes	50
4.2(c)	Node Scheduling for 35 Nodes	51
4.2(d)	Node Scheduling for 40 Nodes	51
4.2(e)	Node Scheduling for 45 Nodes	52
4.3	Optimum Scheduled Task Allocation on Nodes	53
4.4	Node Scheduling for (a) 25 Nodes (b) 35 Nodes (c) 45 Nodes	54
4.5(a)	Node Locations	55
4.5 (b)	Optimum Scheduled Task Allocation on Nodes	56
4.5 (c)	Graph representing Best Solution	56
4.6 (a)	Node Scheduling for 25 Nodes	57
4.6 (b)	Node Scheduling for 30 Nodes	58
4.6 (c)	Node Scheduling for 35 Nodes	58
4.6 (d)	Node Scheduling for 40 Nodes	59
4.6 (e)	Node Scheduling for 45 Nodes	59
4.7(a)	Node Locations	60
4.7(b)	Optimum Scheduled Task Allocation on Nodes	61
4.7(c)	Graph representing Best Solution	61
4.8(a)	Node Scheduling for 25 Nodes	62
4.8(b)	Node Scheduling for 30 Nodes	63
4.8(c)	Node Scheduling for 35 Nodes	63
4.8(d)	Node Scheduling for 40 Nodes	64
4.8(e)	Node Scheduling for 45 Nodes	64
5.1(a)	Node Locations	65
5.1(b)	Optimum Scheduled Task Allocation on Nodes	66
5.1(c)	Graph representing Best Solution	66

5.2(a)	Node Scheduling for 25 Nodes	68
5.2(b)	Node Scheduling for 30 Nodes	69
5.2(c)	Node Scheduling for 35 Nodes	70
5.2(d)	Node Scheduling for 40 Nodes	71
5.2(e)	Node Scheduling for 45 Nodes	73
5.3	Comparison Plot for 25 and 50 Nodes	75
5.4	Comparison Plot for 25 to 50 Nodes	77
