Chapter 1 Skin aging and Bioactive Compounds from Botanicals 1-27

Chapter 2 Objective and scope of the study 28-32

Chapter 3 Hyaluronidase, elastase and matrix metalloproteinase-1 inhibitory activity of standardized extract of Piper betel leaf 33-54

Chapter 4 Exploring Tagetes erecta Linn flower for the elastase, hyaluronidase and MMP-1 inhibitory activity 55-75

Chapter 5 Standardized Clitoria ternatea leaf extract as hyaluronidase, elastase and matrix-metalloproteinase-1 inhibitor 76-91

Chapter 6 Estimation of trace and heavy metals by Atomic Absorption Spectrophotometer 92-99

Chapter 7 Summary and conclusion 100-107

Chapter 8 References 108-122
Acknowledgement 123
Reprints of published research papers
