ACKNOWLEDGEMENT

I take this opportunity to convey my sincere most thanks and heartfelt gratitude to Dr. S.K.Dutta, Emeritus Professor, Seemanta Institute of Pharmaceutical Sciences, Jharpokoria, Orissa and Dr. S. K. Basu, Professor in Pharmaceutics, Department of Pharmaceutical Technology, Jadavpur University, Kolkata, for their deep interest, dedicated mentorship, expert guidance, valuable advice, constant encouragement and perpetual assistance during the course of the investigation and the projection of its final shape which I am going to submit.

I express my sincere thanks and deep gratitude to Prof. Debesh Chandra Majumder, Secretary, Trinity Trust, Asansol, for providing me necessary facilities at Gupta College of Technological Sciences, Asansol during the course of investigation.

I am very much indebted to Dr. Pranabesh Chakraborty, Principal, Gupta College of Technological Sciences, Asansol and staff of the college who ungrudgingly extended their help and the best possible co-operation by allowing me to use the laboratory even during the vacation period.

My grateful thanks are due to Prof. Dr.(Mrs) Malaya Gupta, Professor Emeritus, Jadavpur University, Kolkata, Dr. U.K. Majumder, Professor, Jadavpur University, Kolkata for their help and encouragement time to time.

My sincere thanks are due to Dr. B.Sa, Professor and Head of depart of Pharmaceutical Technology, Jadavpur University, Kolkata for his assistance and encouragement time to time.
I am also indebted to Dr. Subrata Chakraborty, Professor, Gupta College of Technological Sciences, Asansol, who took pain to collect horse serum and some drugs from Bengal Chemical and pharmaceutical works Ltd., Kolkata for my investigations.

I extend my sincere thank to Sri Senthil kumar, Research Scholar, Department of pharmaceutical Technology, Jadavpur University, Kolkata who shared valuable suggestions during my research work.

I am also grateful to Bengal Chemicals and Pharmaceutical Works Ltd., Kolkata, Zydus Cadilla, Ahmedabad and Torrent Pharmaceuticals who have supplied the drugs and horse serum for the work without which this project work could not have been materialized.

The successful completion of my work can be attributed entirely to the blessing, continuous care and moral support of my mother, my wife, brother, in-laws, my teachers of Department of Pharmaceutical Technology, Jadavpur University, kolkata.

Last but not the least I thank Mr. S. Bhaduri, technical assistant, for his kind help during the analytical jobs.

At the end I have no words to express my indebtedness to all those who have directly or indirectly helped me to make this thesis a success.

Dated, Kolkata
The 29th Aug, 2005
