ACKNOWLEDGEMENT

This thesis represents years of research to obtain my Ph.D. degree. The whole work would not have been completed without the support, help and encouragement of numerous people including my guide, well wishers, colleagues, my friends and family. I take this opportunity to express my thanks to all those who contributed in many ways to the success of my work and made it an unforgettable experience for me.

First and foremost I offer my heartiest gratitude and respect to my supervisor and guide Dr. Chitra Dutta for her constant guidance, support, encouragement and advice throughout the whole period of research. She was always supportive towards my work with her innovative ideas, scientific intuition, patience and in depth knowledge whilst allowing me the room to work in my own way. She was there for me with her support and advice even in my personal problems and encouraged me to grow not only as a researcher but a good human being. One simply could not wish for a better or friendlier supervisor and I will be indebted to her for giving me the opportunity to work in her team.

I am very much thankful to Council of Scientific and Industrial Research for providing me fellowship to continue my research work.

I would like to thank Dr. Subhagata Ghosh and Dr. Sandip Paul for their support, encouragement and advice in different problems of my work.

I express my sincere thanks to Ms. Sanchari Pradhan, Mr. Sanjoy Saha, Mr. Vinod Gupta, Dr. Anirban Dutta, Dr. Archana Pan, Ms. Lakshmi Maganti, Mr. Sumit Bag for their help and suggestion and valuable tips at the various stages of the work. I
Acknowledgement

am thankful to Dr. Ipsita Chanda, Mr. Sanjib Chatterjee, Ms. Anindya Roy Chowdhury, Mr. Aranyak Goswami, Mr. Utpal Bakshi for their cooperation.

I am thankful to all my friends and well wishers at Indian Institute of Chemical Biology for their help in various ways.

I thank and express my sincere gratitude to the Director of IICB Prof. Siddhartha Roy for allowing me to carry out my research work in IICB.

I am also thankful to Dr. Kunal Ray, Dr. Nanda Ghoshal, Dr. Pradip K. Dutta, Dr. Rukhsana Chowdhury, Dr. M. C. Bagchi and Prof. (Dr.) L. K. Ghosh (JU) for their help at some critical moments.

I would be failing in my duties if I do not mention the help of the authors of journal articles and books which I consulted and I like to thank authors of online journals, databases, websites and software programmes which helped me in numerous ways in my research work. I have acknowledged them in appropriate places in the bibliography section of this thesis.

I give esteem to the continuous inspiration of my beloved Parents whose constant encouragement had been driving force to me.
