My deepest gratitude goes to my guide Dr P R Mishra, Scientist, for his patience and guidance, for his continuous supporting in this PhD program. He was always there to listen and to give advice. He taught me how to ask questions and express ideas. He showed me different ways to approach a research problem and the need to be persistent to accomplish my goal. His enthusiasm and support inspired me to complete this work. He is the person who most responsible for helping me completes the writing of this dissertation as well as the challenging research that lies behind it. He has been a friend and mentor. He taught me how to write academic papers, made me a better researcher, had confidence in me when I doubted myself, and brought out the good ideas in me. (More importantly, he taught me how to work hard and play hard, and how to ski to reduce stress!) Without his encouragement and constant guidance, I could not have finished this dissertation. He was always there to meet and talk about my ideas, to proofread and mark up my papers and chapters, and to ask me good questions to help me think through my problems (whether philosophical, analytical or computational). He also made the lab a wonderful workplace and home for the past three and half years by indulging my ever requirements for the research project. Thanks a lot sir.

I would like to thanks for Director, Central Drug Research Institute for given opportunity to work in this esteemed organization. 

I would like to thanks Dr Satyawan Singh, Head, Pharmaceutics division, for encouragement, inspiration and advice to me and allowing me to do my project in Pharmaceutics division with great zeal.

I take great pleasure to thanks Dr A K Dwivedi for his expert advices during the analytical development and making me to learn a lot of basics in analytical development.

I like to express thanks to Dr R Pal for his supportive criticism during the work and nice advices which helped me and paved right path to solve the problems.

Thanks a lot to Dr Amit Mishra for his great help during the work and nice friendly gestures during the work are unforgettable.

My special thanks to my friend Vikas Jain, who helped me throughout the work with lot of support in every manner and which made my living in this place very lovable and memorable.

These words of THANKS would be not enough for saying all my colleagues' Rolee, Pavan, and Satya, Jitender, Ritu, and Girish for their kind help during the course of the work.

Thanks to Sharda, Neeraj, and Shiva charan, Girish, Tulsi, Himanshu, Anuja, Banashree and Durga for the nice time which made my stay comfortable and memorable.

I would like to thanks to Bhatnagar ji for constructive gestures during the work which made my work nearly complete.

I would like to tell all my friends Naresh, Amol, raja, ashoak, Shiva, panda, Rajesh bhai, Parag bhai, Vinay bhai, Satish, Anil, Rohit, Noel, Suresh, ashoak, Rohit, Pooja, Preeti, Manish, raja, naveen, Williams, Rajeev Mishra, Rajeev and Malay ji and all my friends of the central drug research institute who indirectly or directly made my work really complete, thanks a lot.

I thank mom, dad and my brother srinivas and ramesh who made my journey from a long way to short, sweet, encouraging and unforgettable.

At last, but not least, I would like thanks to gurucharan bhayya, ram kumar bhayya and Chandramani bhayya for providing all the necessary things for research purpose in a very tidy cleaned way. I am very thankfull to SPARC for providing me the drug sample CsA for my studies.
