FOREWORD

The thesis, "Studies on The Nucleocapsid protein N and Phosphoprotein P of the Chandipura virus" is being submitted herewith for the degree of Doctor of Philosophy (Science) of the University of Calcutta.

I express my heartfelt gratitude to my revered mentors, Prof. Dhrubajyoti Chattopadhyay, Department of Biochemistry Calcutta University and Prof. Siddhartha Roy Department of Biophysics Bose Institute for their able guidance, encouragement, patience and caring personality that inspired me throughout the course of this study. I am also grateful to both Prof. Chattopadhyay and Prof. Roy for providing me enormous amount of freedom during the course of this work, because of which I could put forward even the silliest of ideas before them.

I have been extremely fortunate that I got the opportunity to work in Prof. M.S. Shaila's lab in IISc Bangalore. I must thank Prof. Shaila for providing me this wonderful opportunity. I also thank my lab mates in IISc for their support during my stay in Bangalore.

I am also indebted to Prof. S.P. Maulik of the Center for Surface Science, Jadavpur University for providing me with the facilities in his lab. I must thank Arindam da, Asish da, Samik, Indranil and Madhumita of Prof. Maulik's lab for their help.

I would also like to thank Prof. Diptis Sengupta, Prof. Sudip K. Banerjee and Prof. D.J. Chattopadhyay, former Heads and Prof. M.K. Poddar, present Head of the Department for providing me all possible departmental facilities in carrying out this work.

I thank all faculty members and staff members of the Department of Biochemistry and Dr. B.C. Guha Centre for Genetic Engineering and Biotechnology for providing all possible help for doing this work.

I am fortunate enough to have Koustubhda, Arunda, Srikantada, Tamalda, Dipadi, Ranojoy, Soumen, Rajarshi, Santunu, Anup, Smaratij, Subhradip, Raja, Nirmalya, Subhajit, Rabul, Anirban, Mousumidi, Atanuda, Partha, Debjan, Abhishek, Anindya...
Geetanjali, Dipak, as my labmates at different times and I thank them all for their help and support.

I also thank Amitda, Rajatda, Sumanadi, Ruchiradi, Sudeepda, Sancharidi, Soma, Rajesh, Atunu, Amlan, Suranjana, Soumi, Srijata, Sanchari, Sanchaitsa, and Paromita—my labmates at Bose Institute and my friend Habu (Abhijit), at Microbiology Department, Bose Institute for their help and support.

Ma, Baba and dear Popai are not in a position to be simply thanked. I apologize to them for bearing with all the failures in commitment on my part arising out of my busy work schedule during this period.

Lastly, I would like to acknowledge University Grants Commission (UGC) for providing me fellowship during this period of work.

Amitabha Majumdar
Department of Biochemistry
University of Calcutta
