LIST OF TABLES

Table 1.1: Structural Differences of Brain of Transgender male and female. 31
Table 4.1: Design of the study. 131
Table 4.1: Reliability Scores of the Tool. 138
Table 4.2: Item selected for the final Draft of Tool. 139
Table 4.3: Alternatives used for the Tools. 140
Table 5.1: Mean, Median, Mode and standard Deviation of the Demographic
Variables of the Permanent persons of Tuticorin District. 147
Table 5.2: Frequency of the Permanent Resident Transgender Persons of
Tuticorin District with regard of Age. 148
Table 5.3: Frequency of the Permanent Resident Transgender Persons of
Tuticorin District with regard to Educational Qualification. 149
Table 5.4: Frequency of the Permanent Resident Transgender Persons of
Tuticorin District with regard of Employment. 151
Table 5.5: Frequency of the Permanent Resident Transgender Persons of
Tuticorin District with regard to Income. 152
Table 5.6: Frequency of the Permanent Resident Transgender Persons of
Tuticorin District with regard to Marital Status. 154
Table 5.7: Frequency of the Permanent Resident Transgender Persons of Tuticorin
District with regard to Religion. 155
Table 5.8: Frequency of the Permanent Resident Transgender Persons of Tuticorin
District with regard to Area of Living. 156
Table 5.10: Mean, Median, Mode and standard Deviations of the Demographic
Variables of the Demographic Variables of the Migrant Transgender
persons of Tuticorin District. 158
Table 5:11: Frequency of the Migrant Transgender persons of Tuticorin District with regard of Age.

Table 5:12: Frequency of the Migrant Transgender persons of Tuticorin District with regard to Educational Qualification.

Table 5:13: Frequency of the Migrant Transgender persons of Tuticorin District with regard to Employment.

Table 5:14: Frequency of the Migrant Transgender persons of Tuticorin District with regard to Income.

Table 5:15: Frequency of the Migrant Transgender persons of Tuticorin District with regard to Marital Status.

Table 5:16: Frequency of the Migrant Transgender persons of Tuticorin District with regard to Religion.

Table 5:17: Frequency of the Migrant Transgender persons of Tuticorin District with regard to Area of Living.

Table 5:18: Significance of Difference Between Biological Dimension of Victimizations and the Educational Qualification of the Permanent Resident Transgender Persons of Tuticorin District.

Table 5:19: Significance of Difference Between Biological Dimension of Victimizations and the Employment of the Permanent Resident Transgender Persons of Tuticorin District.

Table 5:20: Significance of Difference Between Biological Dimension of Victimizations and the Marital Status of the Permanent Resident Transgender Persons of Tuticorin District.

Table 5:21: Significance of Difference Between Biological Dimension of Victimizations and the Religion of the Permanent Resident Transgender Persons of Tuticorin District.
Table 5:22: Significance of Difference Between Biological Dimension of Victimizations and the Area of Living of the Permanent Resident Transgender Persons of Tuticorin District. 176

Table 5:23: Pearson’s Association Between Age with Regard to Biological Dimension of Victimizations of the Permanent Resident Transgender Persons in Tuticorin District. 178

Table 5:23: Pearson’s Association Between Income with Regard to Biological Dimension of Victimizations of the Permanent Resident Transgender Persons in Tuticorin District. 179

Table 5:24: Significance of Difference Between Psychological Dimension of Victimizations and the Educational Qualification of the Permanent Resident Transgender Persons of Tuticorin District. 181

Table 5:25: Significance of Difference Between Psychological Dimension of Victimizations and the Employment of the Permanent Resident Transgender Persons of Tuticorin District. 183

Table 5:26: Significance of Difference Between Psychological Dimension of Victimizations and the Marital Status of the Permanent Resident Transgender Persons of Tuticorin District. 185

Table 5:27: Significance of Difference Between Psychological Dimension of Victimizations and the Educational Qualification of the Permanent Resident Transgender Persons of Tuticorin District. 187

Table 5:28: Significance of Difference Between Psychological Dimension of Victimizations and the Area of Living of the Permanent Resident Transgender Persons of Tuticorin District. 188

Table 5:29: Pearson’s Association Between Age with Regard to Psychological Dimension of Victimizations of the Permanent Resident Transgender Persons in Tuticorin District. 190
| Table 5:30 | Pearson’s Association Between Income with Regard to Psychological Dimension of Victimizations of the Permanent Resident Transgender Persons in Tuticorin District. | 191 |
| Table 5:31 | Significance of Difference Between sociological Dimension of Victimizations and the Educational Qualification of the Permanent Resident Transgender Persons of Tuticorin District. | 193 |
| Table 5:32 | Significance of Difference Between sociological Dimension of Victimizations and the Employment of the Permanent Resident Transgender Persons of Tuticorin District. | 195 |
| Table 5:33 | Significance of Difference Between sociological Dimension of Victimizations and the Marital Status of the Permanent Resident Transgender Persons of Tuticorin District. | 197 |
| Table 5:34 | Significance of Difference Between sociological Dimension of Victimizations and the Religion of the Permanent Resident Transgender Persons of Tuticorin District. | 198 |
| Table 5:35 | Significance of Difference Between sociological Dimension of Victimizations and the Area of Living of the Permanent Resident Transgender Persons of Tuticorin District. | 200 |
