Acknowledgement

First and foremost I would like to show my sincere and utmost gratitude to both my supervisors, Prof. (Dr.) Chiranjib Bhattacharjee, Department of Chemical Engineering, Jadavpur University, Kolkata, India and Dr. Debasish Sarkar, Assistant Professor, Department of Chemical Engineering, University of Calcutta, Kolkata, India for their kind and valuable advices during the completion of this research work. I sincerely appreciate invaluable academic and personal support I received from them throughout this thesis.

I would also like to acknowledge Department of Science & Technology (DST), India, for funding the project (vide sanction letter no. SR/ S3/ CE/ 058/ 2009), which was very much useful during my research activity.

My utmost gratitude to Dr. Amitava Bandyopadhyay, Associate Professor, Department of Chemical Engineering, University of Calcutta, and Mr. Koushik Ganguly, Assistant Professor, Department of Chemical Engineering, University of Calcutta, for their support and kind advices during my research activity.

My sincere gratitude to my senior colleague Dr. Dwaipayan Sen, Assistant Professor, NIT Agartala, India, for his kind co-operation and suggestions during my research. My sincere thanks to all my colleagues, Santanu Sarkar, Sirsha Putatunda, Ashim Kumar Khan, Department of Chemical Engineering, Jadavpur University and Madhurima Gupta, Department of Chemical Engineering, University of Calcutta, for their help and support during my thesis work.

I must show my sincere gratitude to all the officials’ staffs of University of Calcutta and Jadavpur University for their assistance throughout my work.

Last, but not the least, my family members, especially my parents for their constant moral support and advices during those days.

Ankur Sarkar
Department of Chemical Engineering
Jadavpur University
