

ACKNOWLEDGEMENT

The work embodied in this thesis was done under the diligent supervision of Prof. R. Anantaraman to whom the author expresses his grateful thanks for the constant encouragement, advice and inspiring guidance he received.

The author thankfully acknowledges Prof. C.G.R. Nair, formerly Head of the Department of Chemistry and Prof. C.P. Joshua, presently Head of the Department of Chemistry for providing facilities for this investigation. He wishes to record his sincere thanks to Prof. K. Saramma and Dr. M. Rajasekharan Nair for their keen interest and help. He expresses thanks to Dr. C.P. Prabhakaran and all other members of the faculty for the constant encouragement.

The author records his thanks to the U.G.C. for the award of a Junior Research Fellowship.

Finally, the author extends his gratitude to all of his friends and colleagues for the sincere and affectionate encouragements and help extended to him.

CHANDRAMOHANAKUMAR, N.
