At the outset, I thank God, the Almighty for taking my hands in His and leading me all through these days. I owe a deep sense of heartfelt gratitude to those personalities, without whom my work would remain meaningless.

I express my best regards to **Prof (Dr) R B Lal**, Hon’ble Vice-Chancellor, Sam Higginbottom Institute of Agriculture, Technology and Sciences (SHIATS), Allahabad for providing platform for the students to gain experience and working opportunity.

I would also thank to **Prof (Dr) S B Lal**, pro-Vice-Chancellor, SHITAS, Allahabad for his invaluable support, encouragement and unfailing help, concern and benevolent advice rendered to me.

With immense pleasure and pride, I express my deep sense of gratitude to my respected guide **Dr (Mrs) Pragati Misra**, Assistant Professor, Department of Molecular and Cellular Engineering, Jacob School of Biotechnology, SHIATS, Allahabad for her sustained interest, constant encouragement, kind help and guidance during the course of this investigation and preparation of thesis.

I also want to express thanks to my co-guide **Dr Dilip Kumar Ghosh**, Principal Scientist, Plant Virology Department, ICAR- Central Citrus Research Institute, Nagpur for his valuable guidance in field of Plant Pathology and biotechnology techniques. Many thanks for his support. Without his cooperation I would not be able to complete my Ph D program. His constant help and encouragement are the source of inspiration for successful completion of the research work.

I owe a debt of gratitude to the members of my advisory committee **Prof (Dr) P W Ramteke**, Dean, Postgraduate Studies, SHIATS, **Prof (Dr) George Thomas**, Head, Department of Molecular and Cellular Engineering, Jacob School of Biotechnology, SHITAS and **Dr Pradeep Shukla**, Assistant Professor, Department of Biological Sciences, SHITAS, Allahabad for their kind interest, valuable advice, critical comments and constructive suggestions during the period of my research.
I want to express my deep thanks to Dr M S Ladaniya, Director, ICAR-Central Citrus Research Institute and Dr V J Shivankar, former Director, ICAR-Central Citrus Research Institute for providing necessary facilities to carry out this research work.

I wish to express my gratitude to all Professors at Sam Higginbottom Institute of Agriculture, Technology and Sciences, Allahabad, for their valuable suggestions and constant support during my PhD course work.

I express my heartfelt thanks to Lab attendants Mr Marshal, Mr Vimalesh, Mr Vilas, and Mr Ram for their cooperation.

Words are insufficient to express my deep sense of gratitude to my colleagues and friends Mr Ashish Warghane, Miss Manali Motghare, Miss Priya Sharma, Mr Datta Surwase, Mr Sanghadeep Gautam, Miss Narayni Shukla and Dr Anurag Tayde for their wishes and kind help in many ways. With immense pleasure I thank them for their help. I also express my sincere gratitude to my seniors Dr Balaji Aglave, Mr Swapnil Bawage and Mr Ashish Ingale for their support and encouragement.

Words could not express my profound gratitude to my beloved Parents who have been a reservoir of strength and supported me with constant motivation, affectionate prayers, blessings, sacrifice and their patient endurance to work towards this cherished goal to whom I owe everything I have achieved.

I am thankful to my dearest brothers Saurabh and Pratik who supported, provided strength, through prayers and love, to accomplish this task a reality. Also, a special thanks to my fiancée Rani for her support, encouragement and prayers in my crucial period.

Finally, I thank all those who have directly or indirectly helped me during the course of my study and stood with me in my odds.

(Sumit P Bhose)
