

List of Tables

Table 1.1	Concentration Of RSP and CO in various micro-environments
Table 1.2	Existing Sex Ratio in the Slums
Table 1.3	Caste and Religious composition in the sample Slums
Table 1.4	Family Sizes in the Sample Slums
Table 1.5	Educational Attainment of People above 6 yrs in sample Population by age group
Table 1.6	Categories of Workers
Table 1.7	Categories of Non-workers
Table 1.8	Category of Workers in the slums
Table 1.9	Classification according to per capita income (Rs/ month)
Table 1.10	Type of Housing Structure in the Sample Slums
Table 1.11	Source of drinking water in Sample Slums
Table 1.12	Use of Toilet facilities in Sample Slums
Table 1.13	Socio-economic Status of Households in Sample Slums
Table 2.1	Annual mortality in children aged less than five years from developing countries in 1993.
Table 3.1	Episodes of Illness and the resultant Morbidity Rate (episodes/1000)
Table 3.2	Morbidity Arising from Different Disease Categories
Table 3.3	Morbidity Arising from Different Disease Categories According to Sex
Table 3.4	Morbidity Arising from Different Disease Categories according to Sex and Slum-wise

Table 3.5	Morbidity Rates from ARI and Non-ARI diseases According to age groups
Table 3.6	Morbidity Rates from ARI and Non-ARI Diseases According to Sex and Age groups
Table 3.7	Distribution of Morbidity rates of ARI Illnesses among the Sample Population of Sample Slums
Table 3.8	Morbidity Rates from Acute ARI Illnesses among the Sample Population
Table 3.9	Morbidity rates from Chronic ARI Illnesses among the Sample Population
Table 3.10	Distribution of Morbidity rates from Acute ARI Illnesses according to age group
Table 3.11	Distribution of Morbidity Rates of Acute ARI Illnesses according to Age group among the Women above 5 years of Age
Table 3.12	Morbidity rates of Acute Forms of ARI among children below 5 years of age
Table 3.13	Distribution of Chronic ARI Illnesses according to Age group among the Women above 5 years of Age
Table 3.14	Distribution of Chronic ARI illnesses and Morbidity between ages 0 to 5 years according to sexes
Table 4.1	Distribution of households according to the Type of Housing Structure in the sample
Table 4.2	Location of the Kitchen in the Sample Slums
Table 4.3	Type of Fuel Used by Households in the Sample Slums
Table 4.4	Use of type of Fuel by location of the Cooking Area
Table 4.5	Levels of RSP Emissions in Households in the Sample slums
Table 4.6	Households Exposed to CO levels of emissions
Table 4.7	Sample Population exposed to Different Levels of CO by Sex

Table 4.8	Prevalence of ARI according to the location of the kitchen in the Sample Slums
Table 4.9	Prevalence of ARI among the Sexes According to the location of the Kitchen
Table 4.10	Prevalence of ARI According to the Type of Building material Used
Table 4.11	Prevalence of ARI among the Sexes According the Type of Building Material Used
Table 4.12	Prevalence of ARI According the Socio-Economic Status
Table 4.13	Prevalence of ARI among the Sexes According the Socio Economic Status Classes
Table 4.14	Prevalence of ARI among Different Income groups
Table 4.15	Prevalence of ARI According to Sexes by their income groups
Table 4.16	Prevalence of ARI among level of educational attainment
Table 4.17	Sex-wise Distribution of Prevalence of ARI by Educational Attainment
Table 4.18	Prevalence of ARI according the main Type of Fuel Used
Table 4.19	Prevalence of ARI among the Sexes According the Main Type of Fuel Used
Table 4.20	Households classified according to the presence of ARI and by the type of Fuel used
Table 4.21	Pearsons Product Moment Correlation
Table 4.22	Correlation Matrix for proxy variables for Kusumpur Pahari and Shahadra
Table 4.23	Correlation Matrix for direct impact variables for Kusumpur Pahari and Shahadra
Table 4.24	Odds of the Effect of Different variables on Minor ARI in Kusumpur Pahari
Table 4.25	Odds of the Effect of Different variables on Minor ARI in Shahadra

Table 5.1	Time spent for collection of fuel
Table 5.2	Treatment availed by the sample population
Table 5.3	Expenses on fees to the doctor and medication
Table: 5.4.	Fuel shares for Cooking and Heating by Income: Average Urban Households, (1984). (%)
Table 5.5	Efficiency trends across equipments and energy
Table 5.6	Energy Performance and Cost of lighting Equipment
Table 5.7	Kerosene Allocation during 1999 - 2000
Table 5.8	Cost of Using LPG and Kerosene (2003)
