ACKNOWLEDGEMENT

I express my deep and sincere gratitude to my supervisor and guide, Dr. B. MILTON BOAZ, Assistant Professor, Presidency College (Autonomous), Chennai-600 005, for his inspiring guidance and teaching of the subject. I am also thankful to him for spending his time and availability for giving suggestion and valuable discussion with me during the course of research work. His vast knowledge and skills have been a source of inspiration for me to complete this thesis.

I wish to thank the Principal, Dr. T. PRAMANANDA PERUMAL, Presidency College (Autonomous), Chennai- 600 005, for providing the necessary facilities to carry out my research work.

I express my sincere thank to Dr. V. RAJENDRAN, Professor and Head, Department of Physics, Presidency College (Autonomous), for his constant encouragement and support.

I am thankful to all the faculty members, Department of Physics, Presidency College (Autonomous), Chennai-600 005, for their valuable suggestion.

I would like to record my gratitude to Dr. S. JEROME DAS, Associate Professor, Department of Physics, Loyola College, Chennai- 600 034, the Doctoral Committee member of my research, for his valuable comment and fruitful discussion.
I am very grateful to Dr. G. BHAGAVANARAYANA, National Physical Laboratory, Council of Scientific and Industrial Research, New Delhi and the authorities of Sophisticated Analytical Instrument Facility (SAIF), Indian Institute of Technology Madras, Chennai-600 025, for their helps in completing the characterization.

The thesis would be incomplete, without the sacrifice, love, affection, support, and encouragement of my father Mr. P. KANDASAMY, Head Master (Retd), my mother Ms. R. TAMILMANI, most affectionate brother Mr. K. SIVABALAN and sisters Mrs. K. VIDYA LAKSHMI SELVAGANAPATHY, Mrs. K. BARANI BAKTHAVATCHALAM.

I am pleased to record my heart thanks to beloved wife Mrs. S. KARPAGAM, and daughter P. MAHALAKSHMI for their moral support and encouragement.

(K. PARASURAMAN)
