ACKNOWLEDGEMENTS

All the admirations are for Almighty Lord, the most Gracious and ever Merciful who helped me in difficulties, all the impediments and gave me enough strength and ability to accomplish this research work. I bow my head before, "Thee" for paying my thanks.

My sincere thanks are due to my Research supervisor Prof. T. Sankarappa for his proficient guidance, conscientious scrutiny and bounding encouragement. His wise counsel has honed my perception and application of scientific knowledge. Only from him I have procured the skill of analysis and re-analysis and a penchant towards perfection.

As my guide, he not only helped me through technical details, he made me realize that sincerity, patience and hard work were the lodestar’s, which led to success. His sincerity to work and his helping nature has highly influenced me. I consider myself privileged to have worked under the supervision of the best teacher in my whole life. Indeed words are not enough to express my gratitude to him.

I am grateful to Prof. V. M. Jali, Chairman Department of Physics, Gulbarga University, Kalaburagi, for providing the necessary facilities and infrastructure.

I express my sincere thanks and deep sense of gratitude to professors of my department, R.D Mathad, M. V.N Ambika Prasad, S.M.Hangodimath, Basavaraj Sannakki, B.R. kerur for their kind cooperation, encouragement and providing moral support for the completion of this study.

I thank Department of Physics Osmania University, Hyderabad and Department of Material Science, Gulbarga University for extending some of the experimental facilities for my work. I also thank Dr. Anil Kumar Koppalkar for his suggestions.
It is my immense pleasure to thank **Dr. T. Sujatha**, W/O Prof. T. Sankarappa for her encouragement during the course.

I also had the luck of being in the cohort of some magnificent human beings, fellow Ph.D students in our research group cum my friends. It is my pleasure to thank **Dr. P. J. Sadashivaiah, Dr. Goverdhan Ratla, Dr. Praveen Kumar, Dr. Jyoti. kattimani, Mr Abdul Khader and Miss Chandraprabha G** for their kind cooperation. My special thanks in particular are to **Dr. R. Ramanna and Dr. J. S. Ashwajeet** for helping me in experiments, data analysis and paper writing.

I express my thanks to all my friends working under different Professors in our Department who were always there to give their helping hands and precious time to share my moments of joy as well as of sorrows.

Words cannot define the love and sacrifice of my adorable mother for me. I am highly thankful to **Allah (S.W.T.)** for giving such lovely mother. I fail to club the words through which I could express my thanks for my beloved mother **Mrs. Shahazadi Begum** whose prayers always stood by my side. With profound regards I owe a great debt of gratitude to my loving mother, whose affection has really been a source of great inspiration and encouragement for me during the entire period of my study.

I would like to express my deepest love, respect and admiration for my entire family for their unconditional support, understanding and dedication throughout these years. My Elder brothers **Dr. Aziz Ahmed, Dr. Jameel Ahmed and Md. Nazeer Ahmed** need special praise, they were a source of motivation, continuous encouragement which has led me towards achieving my goals hence deserves special mention for their consonant consort.

I exuberantly acknowledge the contribution of my husband **Mohammed Abdul Khader** who was is and will always be with me and encourages me in every effort of mine. I express sincere thanks for his patience, moral support and constant cooperation for the whole period of course. Much would have left unapproachable without him.
The meaning of my life and work is incomplete without expressing my love to my beloved sons Md Taha, Md Rafae and Md Nafae and my sweet daughter Rida Shihaam who is was always stress reliever for me.

Many thanks are also to the non-teaching staff of the Department of Physics for the help they provided. My similar thanks goes to all those who directly and indirectly helped me in completion of my thesis.

Tanveer Fatima
