First of all, I would like to express my sincere gratitude to my supervisor, Prof. Indra Dasgupta for his constant support, valuable guidance and encouragement throughout this work. During these past five years, his perpetual energy and enthusiasm constantly motivated me.

My special thanks to Prof. Tanusri Saha-Dasgupta, Prof. A. V. Mahajan, Prof. Paul Kelly, Dr. Zhe Yuan, Dr. B. Koteswararao, Dr. Nirmal Ganguli and Mr. Vijay Singh for scientific collaboration.

I am sincerely thankful to Prof. Abhijit Mookerjee, Dr. Subham Majumder, Prof. A. Ghosh and Prof. G. P. Das for their critical comments and suggestions during the annual progress seminars. I also like to thank Prof. Subinoy Dasgupta (the convener of Ph.D committee) for his suggestions.

My thanks to Dr. Sugata Ray and Dr. K. V. Shanavas for fruitful scientific discussion.

I would like to thank all my friends and colleagues who helped me in many different ways during the present work, especially Nirmal, Swarup, Vijay, Arup, Sucheta, Tanushree, Abhisek, Arindam, Somnath da, Srimanta da, Sneemanta, Dhriti, Ashis da, Shreemoyee di, Ruma, Paramita, Sharmisthadi, Santu and Sayantika. It is your friendships that make me happy during these five years.

I would also like to thank the office and technical staff at the Solid State Physics department, Indian Association for the Cultivation of Science (IACS) for their support.

I am grateful to my family members for their continuous support and encouragement. The amount of support that I have from my parents and elder sister, that I can never ever express in words. I also like to thank my in-laws for their support. My special thanks to my husband, Nirmal whose unconditional support, encouragement has helped me to make this thesis possible. Thanks are also due to his help in writing the thesis.

Finally, I sincerely acknowledge Council of Scientific and Industrial Research (CSIR) (Grant No. 09/080(0615)/2008-EMR -1) for research fellowship, financial support from MONAMI and infrastructural support from IACS.
