

APPENDIX

APPENDIX A: **Informed Consent Form**

Introduction:

You are invited to take part in a research study at the Cognitive Clinic, Bangur Institute of Neurology, Kolkata. The study attempts to find out the status of memories individuals have of their life and subjective well-being.

Taking part in this study is entirely voluntary. You may or may not benefit from taking part in this study, but knowledge may be gained that will benefit others. You may withdraw from this study at any time.

You are welcome to question any doubts that you have regarding the study.

Procedure:

You will be tested with a battery of tests that will last to about two to three hours. Prior to administering these tests you will be requested to provide some information regarding your family, education and medical history. You can seek to take rest whenever you feel fatigued.

Specific instructions prior to each test will be provided therein.

Your decision, whether or not to participate in the study will not affect the nature of your treatment.

The tests employed in the study are essentially paper and pencil tests.

If you give your consent by the stated protocol, you are requested to put your signature at the end of the paper.
