Acknowledgement

After years of studying and sitting for innumerable examinations, doing research was my first real chance to apply mind and my acquired knowledge, and feel the joy of experimentation. Now at the end of this wonderful journey as memories conjure up, I take the opportunity to offer my humble thanks to my teachers, elders, friends and well-wishers for their help and support during the course of my work.

At the beginning, I would like to express my gratitude to my supervisor, Prof. Anita Mukherjee, for all her guidance, care and support. I shall ever remain grateful to her for introducing me to the field of research, for her faith in my ability and constant encouragement.

I consider myself fortunate to have the opportunity to know eminent scientists working in the department like Prof. AK Sharma, (Late) Prof. Archana Sharma and Prof. Sumitra Sen. Thanks are due to Prof. S. Jha (Programme co-ordinator, CAS), Prof. S.C. Roy, Dr. S. Mukhopadhyay, Dr. R. Pal and Dr. Moumita Bandyopadhyay for their encouragement and advice.

I would like to thank Dr. Petr Gruz, Scientist, NIH, Tokyo, for providing us the tester strains for the Ames test, Dr. UC Lavania, CIMAP, Lucknow, for kindly providing the specimens of Veteveria zizanioides (Linn.) Nash and Dr. A K Mukherjee, Regional Occupational Health Centre (E), Kolkata, for his kind help in the analysis of metals.

I gratefully acknowledge the support and cooperation throughout my research tenure given by my co-workers Suchismita Ganguly, Debarati Nag, Salma Ghosh, Rupanwita Biswas, Atrayee Bandyopadhyay, Sonali Sinha, Monosij Ghosh, Avisek Basu and Jayita Saha.

I am deeply indebted to my parents whose contribution I fail to define.

Finally, I would like to acknowledge the University Grants Commission, New Delhi, for granting me Junior Research Fellowship and subsequently Senior Research Fellowship.

Centre of Advanced Study in Cell and Chromosome Research, Department of Botany, University of Calcutta
