Acknowledgement

I would like to express my deep sense of gratitude and indebtedness to my supervisor Dr. Animesh Pramanik for initiating me in the field of research. His guidance and constant help in every way throughout the whole tenure made the completion of this thesis possible.

I am also very grateful to Dr. Roland Fröhlich, (Organisch-Chemisches Institut, Universität Münster, Corrensstraße 40, D-48149 Münster, Germany), Prof. M.G. B. Drew (School of Chemistry, University of Reading, Whiteknights, Reading RG6 6AD, UK) and Prof. Judith A. K. Howard (Department of Chemistry, University of Durham, South Road, Durham, DH1 3LE, UK for determination of the crystal structures reported in the thesis.

It is good opportunity to thank all my group members Dr. Sandip Kundu, Dr. Suven Das, Ms. Arpita Dutta, Ms. Sudeshna Kar and Mr. Pradyot Koley for their generous co-operation and providing excellent working atmosphere to make my work successful.

I am also very grateful to Mr. Pitambar Ghosh, Mr. Subhrangshu Chatterjee and Mr. Jagadish Ghosh for recording several NMR and IR spectra reported in the thesis.

I feel immense pleasure in recording my thanks to all the teachers, friends and staffs of our Chemistry Department, for whom I carried out the work smoothly.

I am extremely grateful to UGC, New Delhi for providing research fellowships and University of Calcutta for financial assistance.

I wish to express my heartfelt gratitude to my parents Mr Swapan Kumar Dutt and Mrs Banani Dutt, my uncle Mr. Mrityunjoy Dutt and aunt Mrs Suvra Dutt, my loving sister and brother Amrita and Abhishek and my husband Dr. Sanjit Konar for their continuous encouragement, interest and patience during this tenure.

Lastly I wish to thank my grandparents Late Pankaj Kumar Dutt and Late Amita Dutt for their enormous blessings to make the completion of the thesis possible.
