ACKNOWLEDGEMENTS

I express my heartiest reverence and deepest gratitude to Prof. Rakesh Bhatnagar, Centre for Biotechnology, JNU for inspiring guidance, invaluable suggestions, painstaking efforts, critical review and constant supervision throughout the course of this study. I have no words to express my feelings for his helpful attitude and incessant encouragement from the day one in the centre.

I am heartly indebted to Dr. Yogendra Singh, Scientist E1, Centre for Biochemical Technology, Delhi, for his affectionate guidance, humble suggestions and constructive criticism during the course of study.

I am extremely thankful to Dr. Vikram Sahai, Deptt. of Biochemical Engg. and Biotechnology, IIT Delhi, for helping me with the bioprocess optimization studies. I am also thankful to Dr. Rajiv Bhat for helping me with the analysis of Biophysical experiments. I express my sincere thanks to all faculty members of Centre for Biotechnology, JNU for their cooperation during the study.

I will like to sincerely thank my lab colleagues Smriti, Mohsin, Vibha, Aparna, Samer, Nidhi, Praveen, Shamali, Shariq, Deotosh, Adhuna, Dipika, Suman, Dr.Nair for the cordial atmosphere they provided during the course of study and putting up with my idiosyncracies. They always provided me their helping hands whenever I needed. I would like to thank Ms. Geeta for all her help during the period of study.

I would like to thank my friends and colleagues Shams, Atul, Sharat, Shobita, Suchhi, Vishnu, Rajesh, Ashutosh, Vikas, Saurabh, Sarita, Palash, Sunny, Dipayan, Asha, Sonia, Sangeeta, Agam, Rashmi, Ranjana for their company and cordial atmosphere in the CIF.

I would especially like to thank Tapas and Jagdish for helping me with the graphic portions of the study. I acknowledge the help provided by Sainiji during the course of this study.

I would like to thank Biswajeet, Anil, Ramsukh, Umesh and Naipalji
for their help at innumerable times.

I would like to thank Arun, Varsha, Anil, Manju, Prabodh, Hemant, Ritika and Meenaji for all the help they provided whenever I needed.

I would always cherish my friendship with Puran, Suvendra, Sushim and Ananth who were never tired in extending their helping hands during all my odd stages of life. I am thankful to my friends Bhaskar, Giridhar, Ranjan and Sanjeev for providing a joyful company.

I gratefully acknowledge the financial support received from UGC which enabled me to carry out my research work. Financial assistance by CSIR and DST to attend III International Conference on Anthrax, Plymouth, UK is acknowledged.

I would like to give my special thanks to my Chachaji, Chachiji, Trichi, Puneet, Anshu and Priya who were always smiling whenever I troubled them by dropping at odd hours.

It would not have been possible for me to finish my Ph.D without the inspirations, moral support and love of my family members. I express my heartiest gratitude and humble thanks to my father, mother, Rachna, Manoj, Piyush and Yogita who shouldered all the burdens in the family to let me free which made this study possible. I would also like to thank Poonam for the moral support she provided during the last stages of thesis.
