Chapter 1. INTRODUCTION	1
1.1 Population aging: an overview	1
1.2 The process of aging : biological, social and psychological	3
1.3 Mental health : an overview	4
1.4 Early research on aging in India: a snapshot	11
1.5 Ethnographic and epidemiological approaches to mental health in anthropological research	11
1.6 Quality of life: a short description	13
1.7 Brief review of literature: global concerns on elderly	14
1.7.1 Demographic and socio-economic correlates	15
1.7.2 Social ties and the elderly	15
1.7.2.1 Social support and social network	16
1.7.3 Mental health traits	18
1.7.3.1 Depression	18
1.7.3.2 Anxiety	19
1.7.3.3 Loneliness	21
1.7.3.4 Perceived stress	22
1.7.3.5 Cognitive function	23
1.7.4 Quality of life	24

1.8 Brief review of literature: Indian concerns on elderly	25
1.8.1 Demographic and socio-economic correlates	25
1.8.2 Social ties and the elderly	26
1.8.2.1 Social support and social network	26
1.8.3 Mental health traits	27
1.8.3.1 Depression	27
1.8.3.2 Anxiety	28
1.8.3.3 Loneliness	28
1.8.3.4 Perceived stress	29
1.8.3.5 Cognitive function	30
1.8.4 Quality of life	31
1.9 Relationship between physical health and mental health	32
1.10 Rationale for undertaking the present study	33
1.11 Objective of the study	34
1.12 General hypotheses	35
Chapter 2. MATERIALS AND METHODS	36
2.1 Study area	36
2.1.1 The State of West Bengal	36
2.1.1.1 Geographical location	36
2.1.1.2 Climate: rainfall and seasons	36
2.1.1.3 Floral and faunal wealth	37
2.1.1.4 Area and people	38
2.1.1.5 Socio-economic profile	39
2.1.1.5.1 Education	39
2.1.1.5.2 Religion	39
2.1.1.6 Health scenario	39
2.1.2 Urban study area: Salt Lake City	42
2.1.2.1 Geographical location	42

2.1.2.2	Climate	42
2.1.2.3	Socio-economic profile	42
2.1.2.4	Infrastructural profile	43
2.1.2.5	Historical background	43
2.1.3	Rural study area: Horkhali	44
2.1.3.1	Geographical location	44
2.1.3.2	Climate	44
2.1.3.3	Socio-economic profile	44
2.1.3.4	Infrastructural profile	45
2.2	Study population	45
2.2.1	Demographic profile	45
2.2.1.1	Bidhannagar Municipality (Salt Lake City)	45
2.2.1.2	Horkhali Gram Panchayet	46
2.3	Methods of data collection	46
2.3.1	Selection of study areas	46
2.4	Study design	47
2.5	Period and duration of field work	48
2.6	Data types	48
2.6.1	Demographic profile	49
2.6.2	Socio-economic profile	49
2.6.3	Social ties	50
2.6.3.1	Social support	50
2.6.3.2	Social network	51
2.6.4	Mental health traits	53
2.6.4.1	Depression	53
2.6.4.2	Anxiety	54
2.6.4.3	Loneliness	55
2.6.4.4	Perceived stress	56
2.6.4.5	Cognitive function	57

2.6.5 Quality of life	59
2.7 Reliability test	61
2.8 Statistical analyses	62
2.8.1 Data description	62
2.8.2 Descriptive statistical analyses	63
2.8.3 Inferential statistical analyses	63
Chapter 3. RESULTS	64
3.1 Demographic and socio-economic characteristics	64
3.1.1 Demographic characteristics	64
3.1.1.1 Age-sex distribution	64
3.1.1.2 Marital status	65
3.1.1.3 Family size	65
3.1.1.4 Total number of living offspring	66
3.1.1.5 Living arrangement	66
3.1.2 Socio-economic characteristics	68
3.1.2.1 Level of education	68
3.1.2.2 Occupational status	69
3.1.2.3 Self earning (monthly)	70
3.1.2.4 Family earning (monthly)	71
3.2 Social ties	72
3.2.1 Social support	72
3.2.2 Social network	73
3.3 Mental health traits	75
3.3.1 Depression	75
3.3.2 Anxiety	83
3.3.3 Loneliness	89
3.3.4 Perceived stress	95
3.3.5 Cognitive function	99

3.4 Quality of life	104
Chapter 4. DISCUSSION	111
4.1 Aging, mental health and its socio-demographic determinants: an overview	111
4.2 Rural-urban contrasts: demographic and socio-economic variables	113
4.3 Mental health traits	114
4.3.1 Depression	114
4.3.2 Anxiety	116
4.3.3 Loneliness	118
4.3.4 Perceived stress	120
4.3.5 Cognitive function	121
4.4 Quality of life	122
4.5 Interrelationships among the study traits	124
4.6 Perception on 'old-age' problems	124
4.7 Strengths and limitations of the study	125
4.8 Concluding remarks	126
Chapter 5. SUMMARY	129
