ACKNOWLEDGMENTS

I thank Dr Gowrishankar for his excellent guidance throughout my Ph.D. program. I have benefitted from stimulating discussions with him and have gained by his critical evaluation of experimental results.

Dr P M Bhargava has been a source of inspiration to all research fellows. I would like to thank him, Prof H Sharat Chandra and Prof D Balasubramanian for their encouragement and support.

It was a pleasure working in CCMB and the congenial atmosphere it provided was due to the cooperation from all colleagues.

The research fellows of CCMB have always been helpful. I would in particular like to acknowledge Pandey, Girija, Sridhar, Patil, Laxma, Ashok, Girish, Jayashree, Dattanand, Gayatri, Murali, Manna, Muralikrishna and Raghavender. I enjoyed the company of Uma, Poonam, Manjula, Sundaram, Kasbekar, Rajkumari, Saroja, Chanda, Bhavani and Saisree.

My thanks to Narasimha, who was helped by Kasim and Srinath in preparing the media and maintaining the glassware and chemicals in the lab.

I would like to thank Prabhakar for typing part of the thesis and Arif for typing and formatting the thesis.

My thanks to Prakash and Bhaskar for xeroxing the thesis.

My people at home have been a source of moral support and encouragement throughout.

The financial support provided by CSIR and CCMB is acknowledged.
