Tables/ matrices

2.1. Summary of literature on artistic ability .......................................................... 10
2.2. Description of the multiple intelligences ......................................................... 20
2.3. Summarizing some of the support for MI theory ....................................... 26
2.4. Brief description of the Indian views of intelligence ................................. 29
3.1. Core functions and applications of the seven intelligences ......................... 39
3.2. Relationship between parental education and hobbies ............................... 43
3.3. Summary profile of the research participants interviewed .......................... 61
3.4. Artists selected for biographic study ............................................................. 69
4.1. Summary of scores for the eight intelligences ............................................. 76
4.2. Complete scores on the eight intelligences ............................................... 77
4.3. Rank ordered scores for linguistic intelligence ........................................... 78
4.4. The relationship between education/area of work on linguistic intelligence .... 80
4.5. Rank ordered scores for logical-mathematical intelligence ....................... 83
4.6. Relationship between education/work and logical-mathematical intelligence .... 84
4.7. Artistic heritage and musical intelligence .................................................... 88
4.8. Relationship between musical exposure and scores on musical intelligence .... 88
4.9. Rank ordered scores for musical intelligence ............................................. 90
4.10. Rank order of scores on spatial intelligence ............................................. 93
4.11. Gender effect on visual-spatial scores ....................................................... 96
4.12. Rank ordered scores for kinesthetic intelligence ....................................... 97
4.13. Rank ordered scores for Interpersonal intelligence ................................ 100
4.14. Rank ordered scores for Intrapersonal intelligence ................................... 100
4.15. Relationship between age and intrapersonal intelligence ............................ 101
4.16. Rank ordered scores for Naturalist intelligence ....................................... 102
4.17. Summary of MI profiles of leading Indian artists of the 20th century .......... 105
5.1. Earlier research on temperamental and personality correlates of creativity .... 121
5.2. Verbatim phrases used by artists to describe their identity ......................... 128
7.1. Relationship between age at start of training and family background (research participants) ................................................................. 164
7.2. Relationship between age at start of training and family background (biographed artists) ........................................................................ 166
8.1. Outlining the hypotheses generated in this study of the artist ..................... 176
