CONTENTS

Preface

CHAPTER-I
INTRODUCTION

1.1 Introduction and Motivation
1.2 The Schwarzschild Spacetime
1.3 The time-like geodesics in Schwarzschild Spacetime
1.4 The null geodesics in the Schwarzschild spacetime
1.5 Schwarzschild spacetime in a Newman-Penrose formalism

CHAPTER - II

GRAVITATIONAL FIELD WITH CENTRAL SYMMETRY

2.1 Introduction
2.2 The Metric and Field Equations
2.3 The Solution
2.4 Interpretation of Result
2.5 Concluding Remarks
CHAPTER - III

EINSTEIN-NON-ABELIAN PROCA (ENAP) REGULAR AND
BLACK HOLE SOLUTIONS

3.1 Introduction
3.2 Non-Hair Theorem Limits
3.3 Metric and Connection
3.4 Boundary Conditions and ENAP Equations
3.5 Concluding Remarks

CHAPTER - IV

EINSTEIN-YANG-MILLS-HIGGS (EYMH) REGULAR AND
BLACK HOLE SOLUTIONS

4.1 Introduction
4.2 Limits On No-hair Theorems
4.3 The Metric and Higgs Ansatz
4.4 Boundary Conditions and EYMH Equations
4.5 Concluding Remarks
