Chapter 1

1. Introduction ............................................. 1

Chapter 2

2. Review of Literature .................................... 17
  2.1 Diversity and distribution of turtles. ............. 17
  2.2 Habitat parameter analysis ......................... 32
  2.3 Shell variation in turtle species .................. 26
  2.4 Genetic variation with reference to *Manouria emys* 37

Chapter 3

3. Materials and Methods ............................... 42
  3.1 Materials and methods for studying diversity and distribution of turtles 42
    3.1.1 Study area ........................................ 42
      3.1.1.1 Central valley .............................. 42
      3.1.1.2 Churachandpur district .................... 43
    3.1.3 Diversity and distribution study ............. 46
  3.2 Habitat parameters assessment in certain freshwater turtle habitats of central valley 58
    3.2.1 Temperature ...................................... 60
    3.2.2 pH ................................................ 60
    3.2.3 Conductivity ..................................... 60
    3.2.4 Transparency .................................... 60
    3.2.5 Dissolve oxygen (DO) ......................... 60
    3.2.6 Free carbon dioxide (CO$_2$) ................. 69
    3.2.7 Nitrate .......................................... 64
    3.2.8 Calcium ......................................... 67
3.3 Material and methods for analysis of variation in shell morphometry of the turtles recorded 69

3.3.1 Morphometric measurements of the turtles 69

3.4 Material and methods for studying intraspecific genetic variation in *Manouria emys* population 71

3.4.1 Tissue sampling 71

3.4.2 DNA isolation from the tissue 71

3.4.3 Agarose gel electrophoresis for genomic DNA 73

3.4.4 PCR primer preparation 74

3.4.5 Electrophoresis of PCR products 77

3.4.6 Sequence preparation 79

3.4.7 Phylogeny analysis 79

3.4.8 Model selection for preparing phylogeny tree 80

3.4.9 RNA secondary structure and Protein structure prediction 81

Chapter 4

4. Results

4.1 Diversity and distribution of turtles in certain districts of Manipur 82

4.1.1 Family Geoemydidae 93

4.1.2 Family Trionychidae 97

4.1.3 Family Testudinidae 98

4.2 Physico-chemical parameters studies of selected freshwater turtle habitats 106

4.2.1 Temperature 112

4.2.2 pH 112

4.2.3 Conductivity 113

4.2.4 Transparency 113

4.2.5 DO 113

4.2.6 Free Carbon dioxide (FCO$_2$) 114

4.2.7 Nitrate 114

4.2.8 Calcium 114

4.3 Analysis of variation in shell morphometry of the turtles recorded 115

4.3.1 *Cuora amboinensis* 123

4.3.2 *Cyclemys dentata* 124

4.3.3 *Cuora mouhotii* 125
4.3.4  *Melanochelys trijuga*  
4.3.5  *Amyda cartilaginea*  
4.3.6  *Nilssonia hurum*  
4.3.7  *Indostudo elongata*  
4.3.8  *Manouria emys*  

4.4  Genetic variation studies among *Manouria emys* population

4.4.1 Genetic variation studies of *Manouria emys* of Churachandpur district, Manipur using cytochrome b

4.4.2 Genetic variation studies of *Manouria emys* of Northeast India using cytochrome b

4.4.3 Genetic variation studies of *Manouria emys* of Northeast India using COI

4.4.4 Genetic variation studies of *Manouria emys* of Churachandpur district, Manipur using R35 nuclear gene intron.

4.4.5 RNA secondary structure prediction of COI and Cytochrome b sequences of *Manouria emys* from Manipur

4.4.6 Protein structure prediction

Chapter 5

5. Discussion

5.1 Diversity and distribution of turtles in valley districts and hilly Churachandpur district of Manipur

5.2 Habitat parameters assessment of freshwater turtle habitats

5.3 Shell morphometric assessment studies of turtle’s species in Manipur

5.4 Genetic variation in *Manouria emys*.

Chapter 6
