

List of Tables presented in the study

Chapter	Chapter Name	Table/ Figure No.	Description	Page No.
1	Introduction	NA	Table/ Figure Not Available	
2	Review of Literature	Figure 1	Graphical Representation of the People Involved in Production of a Movie	036
2		Figure 2	Experience and Profile of Media Professionals	037
2		Figure 3	Projected Key Size of Key Segments in Media and Entertainment Industry between the Years 2008-2022	038
2		Figure 4	Projected Human Resource Requirement in Media Industry between the Years 2008-2022	038
2		Figure 5	Structure of Original Taxonomy	040
2		Figure 6	Structure of the Knowledge Dimension of Revised Taxonomy	041
2		Figure 7	Structure of the Cognitive Process Dimension of the Revised Taxonomy	042
2		Figure 8	Pyramid Structure of Revised Taxonomy	043
2		Figure 9	Difference between the Old and Revised Structure of Blooms Taxonomy	043
2		Figure 10	The Cognitive Process Dimension	044
2		Figure 11	Application of the Revised Taxonomy for One of the Unit Lessons	044
2		Figure 12	Learning Process from Simple to Complex in Revised Taxonomy	045
3	Research Methodology	Table A	Type of Channels and No. of Channels in Kannada	058
3		Table B	Institutions Considered for Content Analysis of the Syllabus and Visited for this Study	062

Chapter	Chapter Name	Table/ Figure No.	Description	Page No.
4	Content Analysis	Table C	List of Universities and the Courses Offered considered for Content Analysis.	080
4B1	Analysis and Discussion of Student	4.0	Under Graduate and Post Graduate Students Respondents Index	122
4B1		4.1	Distribution of study respondents according to age	123
4B1		4.2	Distribution of study respondents according to gender	124
4B1		4.3	Distribution of study respondents according to the management of institutions	125
4B1		4.4	Distribution of study respondents according to their level of education	126
4B1		4.5	Distribution of Under Graduate level respondents according to the subjects related to visual media taught in Creative, Non-Technical and Technical and Management aspects	127
4B1		4.5.1	Distribution of Post Graduate level respondents according to the subjects related to visual media taught in Creative, Non-Technical and Technical and Management aspects	128
4B1		4.6	Distribution of Under Graduate study respondents according to their opinion on the faculty being equipped to impart practical training	131
4B1		4.6.1	Distribution of Post Graduate study respondents according to their opinion on the faculty being equipped to impart practical training	132

Chapter	Chapter Name	Table/ Figure No.	Description	Page No.
4B1	Analysis and Discussion of Student	4.7	Distribution of study respondents according to practical hours allotted in their institutions in electronic media/ visual media per week	135
4B1		4.8	Distribution of study respondents according to the available Infrastructural and facilities	137
4B1		4.9	Distribution of study respondents according to the availability of equipment's in the studio for practical for Under Graduate	138-139
4B1		4.9.1	Distribution of study respondents according to the availability of equipment's in the studio for practical for Post Graduate	139-140
4B1		4.10	Distribution of study respondents according to the equipment provided for practical training	141
4B1		4.11	Distribution of study respondents according to availability of the operating system platform used for video editing	143
4B1		4.12	Distribution of study respondents according to the software available for video and sound editing	144
4B1		4.13	Distribution of study respondents according to the availability of camera and editing systems per student	146
4B1		4.14	Distribution of study respondents according to their opinions about the internship and placement assistance among Under Graduates	149
4B1		4.14.1	Distribution of study respondents according to their opinions about the internship and placement assistance among Post Graduates	149

Chapter	Chapter Name	Table/ Figure No.	Description	Page No.
4B1	Analysis and Discussion of Student	4.15	Distribution of study respondents according to their opinions about the course content and training among Under Graduates	151
4B1		4.15.1	Distribution of study respondents according to their opinions about the course content and training among Post Graduates	151
4B1		4.16	Distribution of study respondents according to the suggestions requiring changes Under Graduate in the curriculum	154
4B1		4.16.1	Distribution of study respondents according to the suggestion requiring for changes in the Post Graduate curriculum	154
4B2	Analysis and Discussion of Faculty	5.0	Distribution of study respondents representing faculty participants across Karnataka	160
4B2		5.1	Distribution of study respondents according to the age groups	161
4B2		5.2	Distribution of study respondents according to their gender	161
4B2		5.3	Distribution of study respondents according to their educational qualification	162
4B2		5.4	Distribution of study respondents according to the academic and industry experience	163
4B2		5.5	Distribution of study respondents according to the courses taught by them	164
4B2		5.6	Distribution of study respondents according to the subjects taught related to visual media in creative, non-technical, technical and management aspects	165-166
4B2		5.7	Distribution of study respondents according to the professional certification acquired in subjects related to visual media in Creative, Non-Technical, Technical and Management aspects other than their academic degree	169-170

Chapter	Chapter Name	Table/ Figure No.	Description	Page No.
4B2	Analysis and Discussion of Faculty	5.8	Distribution of study respondents according to the institutional support for academic growth	173
4B2		5.9	Distribution of study respondents according to the academic support for growth and updations among Under Graduate faculties	174
4B2		5.9.1	Distribution of study respondents according to the academic support for growth and updations among Post Graduate faculties	175
4B2		5.10	Distribution of study respondents according to the availability of operating system platform to teach practical subjects	178
4B2		5.11	Distribution of study respondents according to the available infrastructural facility related to visual media	179
4B2		5.12	Distribution of study respondents according to the availability of equipment for the students in their department	181
4B2		5.13	Distribution of study respondents according to the availability of software for students in editing lab	184-185
4B2		5.14	Distribution of study respondents according to their perception on the pedagogy and syllabus need to be with the present industry requirements and employable skills	187
4B2		5.15	Distribution of study respondents according to the satisfaction with the pedagogy and syllabus of the subjects handled	188
4B2		5.16	Distribution of study respondents according to their suggestion requiring the change in the present syllabus among Under Graduate faculties	189
4B2		5.16.1	Distribution of study respondents according to the suggestion requiring the change in the present syllabus among Post Graduate faculties	190

Chapter	Chapter Name	Table/ Figure No.	Description	Page No.
4B2	Analysis and Discussion of Faculty	5.17	Distribution of study respondents according to the proficiency of students at the end of the course	191
4B3	Analysis and Discussion of Media Professionals	6.1	Distribution of study respondents according to the age group of media professionals	197
4B3		6.2	Distribution of study respondents according to their gender	198
4B3		6.3	Distribution of study respondents according to their educational qualification	199
4B3		6.4	Distribution of study respondents according to their academic qualification	200
4B3		6.5	Distribution of study respondents according to their locality	202
4B3		6.6	Distribution of study respondents according to their experience in media industry	203
4B3		6.7	Distribution of study respondents according to their engagement in visual media	204
4B3		6.8	Distribution of study respondents according to their key role in the respective departments of visual media	205
4B3		6.9	Distribution of study respondents according to the other roles performed by them	207
4B3		6.10	Distribution of study respondents according to their opinion to recruit students from media courses	209

Chapter	Chapter Name	Table/ Figure No.	Description	Page No.
4B3	Analysis and Discussion of Media Professionals	6.11	Distribution of study respondents according to the category of students they prefer to recruitment as assistants	210
4B3		6.12	Distribution of study respondents according to the educational qualification required by new aspirants in various departments of visual media	212
4B3		6.13	Distribution of study respondents according to the number of their assistants who acquired a degree in media courses in last five years	214
4B3		6.14	Distribution of study respondents perception according to the roles in which the fresh media graduates qualify to fit in media industry	216
4B3		6.15	Distribution of study respondents according to the overall knowledge possess by Journalism and Electronic Media graduates	218
4B3		6.16	Distribution of study respondents according to the outcome of the students of Journalism and Mass Communication	220
4B3		6.17	Distribution of study respondents according to the outcome of the students of Electronic Media graduates	223
4B3		6.18	Distribution of study respondents according to the importance of Indian and regional literatures Media studies	224
4B3		6.19	Distribution of study respondents according to the opinion regarding attitude of visual media aspirants	226
4B3		6.20	Distribution of study respondents according to the importance of knowledge and skills which are most essential in the industry for different roles	228

Chapter	Chapter Name	Table/ Figure No.	Description	Page No.
4C	In-Depth Interview	NA	Table/ Figure Not Available	NA
4D	Analysis of Hypothesis	Table 4D 1	Z Test applied for the Table 4.14 Distribution of study respondents according to the opinions about the internship and placement assistance among Under Graduates.	253
4D		Table 4D 2	Z test applied for Table 4.14.1: Distribution of study respondents according to the opinions about the internship and placement assistance among Post Graduates	254
4D		Table 4D 3	Z test applied for Table 4.15: Distribution of study respondents according to the opinions about the course among Under Graduates	255
4D		Table 4D 4	Z test applied for Table 4.15.1: Distribution of study respondents according to the opinions about the course among Post Graduates	256
4D		Table 4D 5	Z test applied for Table 4.16: Distribution of study respondents according to the suggestions for changes in the curriculum at Under Graduate level	257
4D		Table 4D 6	Z test applied for Table 4.16.1: Distribution of study respondents according to the suggestions for changes in the curriculum at Post-Graduate level	258
4D		Table 4D 7	T test applied for Table 5.16: Distribution of study respondents according to the suggestion for the change in the present syllabus among the faculties	259
4D		Table 4D 8	T test applied for Table 5.16.1: Distribution of study respondents according to the suggestion for the change in the present syllabus	259

Chapter	Chapter Name	Table/ Figure No.	Description	Page No.
4D	Analysis of Hypothesis	Table 4D 9	Calculation of Standard Deviation, Median, Interquartile Range and Mann Whitney and 2 Tailed test applied for Table 5.18: Suggestion to modify the present syllabus	261
4D		Table 4D 10	Proficiency of the students vs. syllabus and pedagogy for Table 5.17: Model Summary of proficiency of students and Syllabus and pedagogy	262
4D		Table 4D 11	Unstandardized and Standardized Coefficients tested for Table 4.17	262
4D		Table 4D 12	Calculation of Median and Interquartile Range and Mann Whitney and 2 tailed tests applied for Proficiency of students both in Under Graduate and Post Graduate for Table 5.17	262
4D		Table 4D 13	Anova Test applied for the Table 4.14 and 4.14.1 to know the variance in opinions among student respondents on internships and placements.	264
4D		Table 4D 14	Anova Test applied for the Table 4.15 and 4.15.1 to know the variance in opinions among student respondent's to the satisfaction on the program.	265
4D		Table 4D 15	Anova Test applied for the Table 4.16 and 4.16.1 to know the variance in opinions among student respondents on the change required in syllabus.	266
4D		Table 4D 16	Anova Test applied for the Table 5.17 and 5.17.1 to know the variance in opinion among faculty respondents on the change required in syllabus.	267

An Empirical Study on Visual Media Education Credentials and Industry Expectations

Chapter	Chapter Name	Table/ Figure No.	Description	Page No.
5.1	Conclusion	NA	Table/ Figure Not Available	NA
5.2	Recommendation	5.1	Prospective Programs for Visual Media University	300
5.2		5.2	Semester and Level Inter-relation of Under Graduate Program	300
5.2		5.3	Courses to be incorporated in the newly proposed BA program in Visual Media	301
5.2		5.4	Semester and Level Inter-relation of Post Graduate Program	302
5.2		5.5	Courses to be incorporated in the newly proposed MA program in Visual Media	303
5.3	Areas for Further Research	NA	Table/ Figure Not Available	NA
