ACKNOWLEDGEMENTS

“The Guru is the means of realization. There is no knowledge without a teacher.”

– Swami Vivekananda

First and foremost, I would like to express my sincerest gratitude to my Ph.D. Guide, Dr. Ranjan Shetty K, Professor in Department of Cardiology, KMC, Manipal University, Manipal, who gave me constant support, motivation, and encouragement throughout my thesis work. I thank him for being an inspiration to me, and I shall always be indebted for his genuine affection, explicit guidance and authentic leadership throughout my study.

I feel highly privileged to express my gratitude to my co-guide, Dr. Pragna Rao, Associate Dean & Professor of Biochemistry, KMC, Manipal University, Manipal, who has supported me & provided valuable guidance to me during my thesis work.

It is my great pleasure to thank Dr. Poornima Baliga, Pro-Vice Chancellor & Dean of KMC, Manipal University, Manipal, her ample support, and cooperation helped me in the smooth flow of research work at the institution.

I would like to thank my subject experts, Dr. K.L. Bairy, Professor in Department of Pharmacology, KMC, Manipal University, Manipal and Dr. Naveen Chandra G.S., Consultant cardiologist at Columbia Asia Hospital, Bangalore for their valuable suggestions. I would like to extend my sincere gratitude to Dr. Shalini Adiga, Ph.D. Coordinator & HOD, Department of Pharmacology Kasturba Medical College, Manipal for encouragement and suggestions during my thesis work.

I express my sincere thanks to Dr. Tom Devasia, Professor & Head, Dr. Padma Kumar, Professor, Dr. Hashir Kareem, Associate Professor, Dr. Ashwal A.J, Assistant Professor, Dr. Abdul Razak U.K, Assistant Professor, and Registrars, for
their support and suggestions over the years, truly appreciated. The work would not have been possible without their support and encouragement.

I owe my deepest gratitude and humble thanks to Dr. Manjunath Hande, Professor & Head & all the unit heads of Department of Medicine, KMC, Manipal, for their generous co-operation with the patient enrollment for my study. It is a pleasure to thank my former co-guide, Dr. Vivek.G consultant cardiologist at Sparsh Super Speciality Hospital, Bangalore for shaping up my research intellect regarding rationalizing ideas followed by designing appropriate experiments which in the long run have greatly assisted me to improve the quality of work.

I would like to thanks to Mr. Krishnananda Nayak, HOD and other faculties of the Department of Cardiovascular Technology (CVT) for great support and encouragement throughout my study. I would like to say thanks to Mr. Amruth Kiran Bhat, Rishikesh, and Manjunath Shetty for their valuable support during my thesis work. I am immensely thankful to Dr. Krishnananda Prabhu, HOD Biochemistry, KMC, Manipal and Dr. Shobha Kamath for providing the necessary laboratory facilities and suggestion during the course helped me to carry out this research work.

I am very grateful to Dr. Mamatha Ballal, professor in Dept. of Microbiology and Dr. Girish Katta professor in Dept. of Medical Genetics, for providing technical and laboratory facility for my research work and additionally, I would thank all staffs and students of Manipal Central research laboratory, especially to Mr. Vishwas Shetty.

I wish to remember at this juncture all the patients who were involved in my study, without which this thesis would not have materialized. I express my heartfelt thanks to them. I also express my sincere gratitude to all non-teaching staffs and nursing staffs of Kasturba Hospital, Manipal for their help and kind cooperation. Special thanks to Mrs.Vrinda sister who helped me in blood sample collection. It was a pleasure to
share doctoral studies and life with great fellow researchers in the department. I appreciate their valuable support at all times during my study. To all my dear friends near and far, thank you for your persistent encouragement and for being there whenever I needed a break.

I would like to thank my family for all their love and support. I am grateful to my parents Mr. Nagayya Shetty and Mrs. Rudramma who raised me with a love of science and helped me in all my pursuits. I am thankful to my brothers, sisters, sister-in-laws, brother-in-laws, it is their love, affection, and kindness that have guided me along this journey. Finally, I thank all those people whom I could not mention here due to space and my memory constraint, but who have nevertheless touched upon my life and helped me in some or the other way to achieve this goal in life; I want to say a single word which expresses all — Thank you
