ACKNOWLEDGEMENTS

In the name of Allah, the most Gracious, the most Merciful;

First and foremost, I would like to thank Almighty Allah, the most Benevolent, the Cherisher and the Sustainer. He guided all the things in coordination to make this academic work possible. I am highly indebted and grateful to Almighty Allah who gave me strength and spiritual power to face all the difficulties, barriers, ups and downs so calmly during the course of this task. Many people have influenced and inspired me in numerous ways during this period. The completion of this herculean task is possible only because of constant support and inspiration of some people who remained connected with me directly or indirectly during the tenure of my thesis work. For those special people, here are few words.

I would like to express my deepest gratitude to my supervisor, Prof. Abdul Rauf for his constructive criticism, invaluable advice, ever ready helping attitude, excellent guidance, moral encouragement and great support which he provided me from time to time during this period. His teachings, great knowledge, ideals and honest principles of life shall remain the guiding force for the rest of my life. I have learnt from him not only in the field of my subject but he also taught me how to lead a life full of honesty and true labour. I am indebted to him more than he knows. Ms. Zarina is also greatly acknowledged for her caring attitude and supportive nature. A staunch supporter and fan was a special friend, cute Sidra. Her love, support and belief in me were a treasure. Thank you with all my heart and soul.

I feel immense pleasure to express my gratitude to Prof. Zafar Ahmad Siddiqi, Chairman, Department of Chemistry, Aligarh Muslim University for providing all necessary research facilities to carry out my work efficiently. Sophisticated Analytical Instrumentation Facility (SAIF) Punjab University, Chandigarh is also gratefully acknowledged for providing spectral studies. Also, my sincere thanks go to the Council of Scientific and Industrial Research (CSIR), New Delhi for providing financial assistance in the form of Junior/Senior Research Fellowship (JRF/SRF-NET).

I would also like to extend my sincere gratitude to Dr. Asad Ullah Khan, Coordinator, Interdisciplinary Biotechnology Unit, Aligarh Muslim University, Dr. Anis Ahmad, Dr. Iqbal Ahmad, Mr. Rohad Husain, Dr. Mohammad Owais and Mr. Asif Sherwani for carrying out antimicrobial and anticancer studies.
I owe my deepest thankfulness to Mr. Syed Adil Husain Zaidi, Senior Research Fellow, Laboratory of Immunology, Centre for DNA Fingerprinting and Diagnostics (CDFD), Hyderabad for performing some experimental part of anticancer studies. Special thanks to Ms. Yusra Zaidi for her encouragement and full support whenever I needed. I would definitely like to award a word of thanks to Dr. Anubha and Ms. Shoa for managing to send me all the papers I needed throughout my research period.

I express my indebtedness to Prof. (Retd.) Mushfig, Prof. Shamsuzzaman, Prof. Javed Iqbal, Prof. Rafiquddin, Dr. Mashhood Ali, Dr. Mehtab Parvez and Prof. Parveen for being so supportive and encouraging throughout the session.

I convey special acknowledgement to all the non-teaching staff at store, instrumentation, Chairman Office of the Department of Chemistry and Dean Office of science faculty for the assistance they have rendered towards the completion of this academic work. Many thanks go in particular to Mr. Rifaqat, Mr. Rehan, Mr. Sharif and Mr. Riyazat for their very helpful and supportive nature over the course of this Endeavour. I would like to extend my gratitude to Mr. Masoodur Rehman and Mr. Wasiq for their countless help and support.

I also wish to express my sincere thanks to my seniors Dr. Nida, Dr. Musafer, Dr. Shahid, Ms. Kebbesa, and Mr. Shania for their valuable suggestions. Their caring and helping attitude gave me complete strength to proceed. I would also like to thank my juniors Mr. Khairn, Mr. Fuhim, Mr. Abad, Mr. Asif and Mr. Nayeem for humble and active cooperation.

This work would have not been possible without the constant moral support and healthy criticism of my dear friends Ms. Tabassum, Ms. Kulsum, Ms. Hena, Mr. Ralsh, Ms. Varsha, Ms. Sana, Ms. Faiza, Ms. Ayesha and Mr. Tamer.

My acknowledgement will remain incomplete if I forget to mention the name of my best buddy, Ms. Humani who was always with me whenever I needed. By giving me many precious memories, she made a specific place in my heart only she will ever occupy. Although we do not live together anymore nor have much contact but I am forever indebted to her for giving me support, belief, care and for loving me as much as she could.

And above all, to my Family- for being there always to give support, encouragement, care and do not let me down even in the difficult phases of my research work, My deepest gratitude goes to my parents (Ammi and Papa) for their unflagging love, inseparable support and prayers throughout my life; my whole education and this work are simply impossible without them. For me, my
parents did everything possible to smooth the rough terrain and offer encouragements. They taught me self-dependence, humbleness, hard work, honesty and determination is the only recipe for success. I am fortunate enough in having such parents who have been a continuous source of inspiration and their unconditional love overwhelms me. I dedicate this work to them. They deserve far more credit than I can ever give them. I can never express the enough gratitude for all that they have done. Words fail me to express my appreciation to my sisters Dr. Saman (bajjo), Ms. Bushra and Ms. Noma. Without my sisters unflinching support I would have never been able to complete this work; I always felt highly secured and confident by bajjo's support and advice. I am equally thankful to my brother Mr. Ali who is a symbol of happiness in me. I felt highly pledged to have brother-in-law Mr. Syed Tabrez who always pampered me and boosted confidence in me. Words are not enough to express my gratitude to my late grandmother and aunt Shazia khaal who were always there to give moral and emotional support, love beyond limits. May Almighty Allah grant them highest rank in heaven.

Lastly, I pray to Almighty Allah that, all the times lead me on the right path and make me able to fulfill all the dreams towards my family.
