ACKNOWLEDGEMENTS

I sincerely acknowledge;

My supervisor, Prof. K. C. Upadhyaya for providing support and help when needed the most.

My supervisor, Prof. Shobha Goyle for introducing me to this field and for providing guidance at all stages of study.

Former Deans of the SLS, Prof. Shipra Guha Mukherjee, Prof. Najma Z. Baquer and Dean Prof. K. C. Upadhyaya, for providing all the necessary facilities for conducting research work.

Mr. Ahmed, Mr. Alexander, and Mr. Sharma along with the other CIF staff who were always there to provide the helping hand.

Drs. R. Madhubala for useful technical discussions, Prof. Najma Z. Baquer for her help, and Prof. R. Prasad for allowing me to use his laboratory facilities.

Prof. Meena Gupta, Head Department of Neurology, G.B. Pant Hospital, for providing blood samples, muscle biopsies and clinical data and taking a keen interest in this subject.

My labmates, Asha and Binuja for critically going through my thesis. Their cheerfulness made our laboratory one of the best places to work in.

My seniors, Daman and Aperna who have helped me in initial stages of Ph.D work.

My friends Ranjan, Bhaskar, Vandana, Prashant, and Sanjiv for bringing happiness, and fun to otherwise a mundane life and for giving useful tips without which many times my experiments would have failed.

My friends Bhuwan, Saurab, Satyakam, Priya, Sagar, Sushmita, Pintoo, Ajoy, Sanjay, Shaji, Dr. D.C., Rashmi, Satinder, Vidita, Gagan, Meenakshi,
Dhananajay, Dayananad, Girish, Ravinder and Suresh who were there to boost up my morale when it plunged down the dark deep well.

Mr. Dhawan, and his team of workers for making excellent photographs. Satya Ram, Bishen Chand, Ajit Singh, Ramanand for their laboratory assistance.

University Grants Commission for the financial support in form of JRF and SRF.

My brother Vishal, and my sister Varsha made me laugh at my silly mistakes.

Last but not the least my parents whose staunch support, patience and perseverance saw me through the whole process. I dedicate my thesis to them.
